

Fathom Nickel triples land parcel around Gochager Lake with Watts Lake mineral claims acquisition

NEWS RELEASE BY FATHOM NICKEL

Vancouver | March 23, 2023 01:13 PM Eastern Daylight Time

Fathom Nickel (CSE:FNI) CEO and VP Exploration Ian Fraser joined Proactive's Stephen Gunnion with details of the company's strategic acquisition of the Watts Lake mineral claims in Saskatchewan following an agreement with SKRR Exploration Inc in a cash and share deal.

Fraser says while Fathom's focus is nickel, Watts Lake also includes Borys Lake, a VMS-style lead-zinc deposit. It also triples Fathom Nickel's contiguous land package, connecting the historic Gochager Lake nickel deposit with the Mal Lake nickel occurrence.
