

FiscalNote (NYSE: NOTE) Secures Partnership With Google For The Launch Of "Bard" AI

NEWS RELEASE BY BENZINGA

Detroit, Michigan | May 25, 2023 09:00 AM Eastern Daylight Time

By Jad Malaeb, Benzinga

FiscalNote (NYSE: NOTE), a leading AI-driven enterprise SaaS technology provider of global policy and market intelligence, announced that it has been selected by **Alphabet Inc.'s** (NASDAQ: GOOG:) Google as a launch partner for Bard by Google. This partnership with Google marks a significant milestone for FiscalNote, as it expands its leadership in the application of AI to laws and regulations.

Bard by Google is an innovative generative AI platform that allows users to interact with advanced models to create new ideas, products and services. As a launch partner, FiscalNote plans to expose select data and information to Bard's users, thereby capturing critical insights into how users engage generative models to understand political and regulatory information. This expanded user interaction will help create a flywheel for FiscalNote to drive future product development, enhance accuracy and relevancy for FiscalNote customers and potentially enable the company to swiftly extend its leadership in the application of AI and large language models related to these specialized data sets.

FiscalNote's selection as a launch partner for Bard by Google is a testament to the company's decade-long AI leadership in aggregating and training models in the legal, regulatory and political domains. FiscalNote already possesses an impressive portfolio of politically-driven AI tools, **including** intelligent ESG tracking, automatic transcript creation and an intelligent sentiment gauge. The partnership is also a momentum-builder in the company's continued strategic partnership efforts with fellow leading AI innovators and pioneers.

By leveraging this AI partnership with Google, FiscalNote plans to develop novel applications and user experiences that deliver more effective results for its customers. The combination of generalized foundation models with FiscalNote's domain-specific models is expected to create defensible insights to further enable the company to optimize its own models and data collection efforts.

Tim Hwang, FiscalNote's Chairman, CEO, and Co-founder, said, "FiscalNote is honored to have been chosen by Google as a launch partner, as we join this exciting journey of AI innovation and collaborate with a fellow AI pioneer to leverage the potential of generative AI technology to

optimize creativity, reimagine learning, boost productivity, and unleash the potential of trusted data to empower customers and consumers around the globe."

FiscalNote's selection by Google as a launch partner for Bard follows the company's recent [announcement](#) that it was named one of only 14 inaugural 'trusted partners' by AI research and deployment company OpenAI for its ChatGPT Plug-In, enabling access to select FiscalNote market-leading real-time data sets and content for users of OpenAI's platform.

[FiscalNote](#) is a leading technology provider of global policy and market intelligence, and by uniquely combining AI technology, actionable data, and expert and peer insights, FiscalNote empowers customers to manage policy, address regulatory developments, and mitigate risk at a global level. Since 2013, FiscalNote has pioneered technology that delivers mission-critical insights and the tools to turn them into action. Home to CQ, FrontierView, Oxford Analytica, VoterVoice, and many other industry-leading brands, FiscalNote serves over 5,000 customers worldwide with global offices in North America, Europe, Asia, and Australia.
