

Gilead Sciences Commits to Electrifying Its Fleet

NEWS RELEASE BY GILEAD SCIENCES

Northampton, MA | November 16, 2021 10:02 AM Eastern Standard Time

“As a healthcare company, Gilead recognizes the clear connection between a healthy planet and the health of people. We envision a sustainable future and are committed to taking bold action to positively impact our communities. That’s why we’re proud to join the Climate Group’s EV100 and RE100 initiatives – both are important steps to help battle climate change.”

Brett Pletcher

Executive Vice President, Corporate Affairs and General Counsel

We’re pleased to have joined the **Climate Group’s EV100** and to commit to electrifying our fleet of vehicles by 2030. As part of our ongoing efforts to protect the planet, we’ve also committed to using only 100% renewable energy by 2025.

“As a healthcare company, Gilead recognizes the clear connection between a healthy planet and the health of people. We envision a sustainable future and are committed to taking bold action to positively impact our communities. That’s why we’re proud to join the Climate Group’s EV100 and the RE100 initiatives – both are important steps to help battle climate change,” said Brett Pletcher, Executive Vice President, Corporate Affairs and General Counsel.

Gilead Sciences, Inc. is a research-based biopharmaceutical company that discovers, develops and commercializes innovative medicines in areas of unmet medical need. The company strives to transform and simplify care for people with life-threatening illnesses around the world. Gilead has operations in more than 35 countries worldwide, with headquarters in Foster City, California.
