Vancouver, British Columbia | December 08, 2022 08:10 AM Pacific Standard Time

Great Atlantic Resources' VP of exploration David Martin joined Proactive to share news the company has released results for the first ten rock samples at the west-central region of the Keymet precious and base metal property in New Brunswick. Martin said the samples show a new target gold zone that measures 1.5km long and with samples up to 1.8 grams per ton (g/t) gold.
