

Green Stream Holdings, Inc., Enters Into EV Charging Station Installation and Management Agreement With New Supplier "Qovoltis"

The First Charging Stations Will Be Targeted For The New York City Area, And North Bergen NJ As Well As In Both Arizona California

NEWS RELEASE BY GREEN STREAM HOLDINGS INC.

NEW YORK, NY | March 27, 2023 11:51 AM Eastern Daylight Time

Qovoltis, A French Based Company, Is An Electric Vehicle Charging Solution Provider Composed Of A Smart Charger With Real Time Power Demand Adaptability, A Mobile App To Manage Everything Remotely And A Unique Consumption Optimization System

McCapMediaWire -- Green Stream Holdings Inc. (OTC: **GSFI**) ("the Company") (<https://greensolarutility.com>), an emerging leader in the solar utility and finance space, previously announced that it has entered into a Joint Venture (JV) with Premiere Empire Energy, LLC, ("Premiere") to provide electric charging stations to both company's clients. The Company has replaced the original provider, RAMPO with a cutting edge French based company, Qovltis to supply chargers for the project.

Qovoltis, A French based company, is an electric vehicle charging solution provider composed of a smart charger with real time power demand adaptability, a mobile app to manage everything remotely and a unique consumption optimization system. For more information go to: <https://www.qovoltis.com/en/>

Qovoltis will furnish and install all equipment, installation costs and associated rebates (as available) for EV charging stations and shall be compensated for all work required for the completed installation of electric vehicle chargers by the JV. After completion of EV installation, the ownership of the charging equipment shall be transferred to "customer".

Premiere provides EV charging management solutions made easy with premium customer service to its clients. It allows their customers to take advantage of valuable rebates available under federal and state sustainability programs; to control access, set pricing and review real-time data on station usage and performance; and to get help when needed, day or night, with 24/7 support for their customers and their drivers/customers.

CEO James DiPrima said: "This JV should be a substantial revenue driver for both companies. We will build solar and now electric car charging stations for our and their clients, all the while we will be helping them reducing their carbon foot prints. We will split the net profits on a 50/50 basis. We hope to deploy this model nationwide to give consumers options and helping gas stations reduce their carbon foot print"

About Premiere Empire Energy:

Premier Empire Energy is a leading New York Energy Supply Company (ESCO). Premier Empire Energy, provides energy services to small business, commercial, and residential customers in deregulated energy markets. We strive to provide our customers with the most competitive electricity and natural gas rates, in an effort to become New York's favorite energy supplier!

We look forward to providing our clients with our most competitive electric and natural gas rates, and becoming their favorite commercial energy supplier!

An Energy Service Company, commonly referred to as ESCO, is a licensed company that can purchase electricity and natural gas for customers. ESCOs, also referred to as third party supplier, operate in deregulated markets. ESCOs take over the Supply section of a customer's utility bill. Our customers will still be a customer of their Utility, as the utility will be in charge of the delivery of energy and maintenance of the customer's meter and wires.

At Premier Empire Energy, we pride ourselves on providing outstanding customer service with an honest, educational, and transparent approach to energy sales. We are committed to providing you with the information your home and business needs to make informed, efficient decisions about energy products and services. It is our goal to foster long term customer relationships that are maintained by open communication and flexibility.

About Green Stream Finance, Inc.

Green Stream Finance, Inc., a solar utility and finance company with satellite offices in Malibu, CA and New York, NY, is focused on exploiting currently unmet markets in the solar energy space, and is currently licensed in California, Nevada, Arizona, Washington, New York, New Jersey, Massachusetts, New Mexico, Colorado, Hawaii, and Canada. The Company's next-generation solar greenhouses constructed and managed by Green Rain Solar, LLC, a Nevada-based division, utilize proprietary greenhouse technology and trademarked design developed by world-renowned architect Mr. Antony Morali. The Company is currently targeting high-growth solar market segments for its advanced solar greenhouse and advanced solar battery products. The Company has a growing

footprint in the significantly underserved solar market in New York City where it is targeting 50,000 to 100,000 square feet of rooftop space for the installation of its solar panels. Green Stream is looking to forge key partnership with major investment groups, brokers, and private investors in order to capitalize on a variety of unique investment opportunities in the commercial solar energy markets. The Company is dedicated to becoming a major player in this critical space. Through its innovative solar product offerings and industry partnerships, the Company is well-positioned to become a significant player in the solar space.

Forward-Looking Statements:
