

Inc. 5000's Top Gold Company Is Helping Clients Diversify Into Gold And Silver IRAs, And Hedge Against A Possible Recession

NEWS RELEASE BY RED ROCK SECURED

El Segundo, CA | March 21, 2023 09:50 AM Eastern Daylight Time

By David Willey, Benzinger

Diversifying investments into gold or silver is a **strategy** that can help manage risk during periods of market uncertainty. While there are **multiple ways** of creating a precious metals portfolio, investing in a gold or silver individual retirement account (IRA) is a way to protect retirement funds without the responsibility of personally buying and storing precious metals.

This is why diversification through a precious metals IRA can be a **hedge** against inflation. In 2022, investment demand and gold demand, excluding over-the-counter (OTC), **increased** by 10% and 18% year-on-year respectively. The rising interest in gold is reminiscent of the increased investments in precious metals that followed the 2008 financial market crash. The value of precious metals like gold often **moves** inversely to market performance, and the value of gold **rose** dramatically in the years following the market collapse of '08.

Red Rock Secured, a precious metals education and services company, was **ranked** in the top 4% of Inc. 5000's fast-growing companies in the U.S. for 2022. It was also the highest-ranked gold company on Inc. 5000's list.

Helping Clients Diversify With Inflation-Resistant Assets

Red Rock Secured specializes in helping clients transfer some portion of their 401(k) or other retirement funds to precious metals. The company offers dedicated customer service to help clients make informed financial decisions, and the team's personalized guidance makes the transfer very simple. A dedicated rollover specialist walks the client step-by-step through the straightforward process, and some rollovers will even be **tax and penalty-free**.

Red Rock has built a reputation for premium service and customer care that is reflected in a range of high ratings from review platforms and customers. It is an accredited business **with the Better Business Bureau**, with an A+ business rating from the bureau and numerous positive customer reviews. The Business Consumer Alliance, which promotes market self-regulation, gives Red Rock a **five out of five rating**, and **Trustpilot Group**

PLC (OTC: TRST) gives Red Rock an “**Excellent, 4.8 / 5**” based on over 150 client reviews. The company has also been **accredited** by the highly reputable information, reviews and ratings company ConsumerAffairs, and Benzinga gives Red Rock **five stars in each of its five business categories**.

Once a customer decides to diversify into precious metals, Red Rock Secured offers a totally free, insured delivery program to get the shipment to a secured facility. There are no custodial or management fees associated with creating the precious metals fund, and more than 90% qualify for free storage for one to 10 years, while some qualify for lifetime free storage.

As part of its suite of resources, Red Rock provides **a real-time chart for gold and silver prices**, as well as price performance compared with several markets. The company also guarantees it will buy back precious metals at their market value, though certain restrictions apply. It also offers a price protection program for qualified accounts that protects clients against a price drop in their precious metals for the first week of purchase.

“When the recession hit in 2008, I watched helplessly as people lost their savings. I saw them become stressed and unsure about how they would save for retirement, and I knew I needed to help. For years, my team and I have been giving people a physical alternative for their retirement savings, one where asset protection is the primary focus,” **said** Red Rock Secured CEO Sean Kelly. “We started this company to help people, and I am grateful to be able to still be doing that today.”

Through rigorous customer service and a comprehensive set of benefits, Red Rock provides an account creation process that is hassle-free, so that its customers can look forward to a worry-free retirement.
