

# Kirk Taylor Is the Featured Guest on AgriNovus Indiana's Ag+Bio+Science Podcast

NEWS RELEASE BY LAND BETTERMENT CORPORATION

FISHERS, Ind. | December 07, 2021 08:11 AM Eastern Standard Time

FISHERS, Ind., December 7, 2021 /3BL Media/ - Land Betterment Corporation ("Land Betterment" or the "Company"), an environmental solutions company fostering positive impact through upcycling former coal mining and industrial sites to create sustainable community development and job creation, is excited to share AgriNovus Indiana's Ag+Bio+Science podcast #151 featuring Kirk Taylor, Land Betterment's Cofounder and President.

On this week's episode of the **Ag+Bio+Science** podcast Mitch Frazier, President and CEO of AgriNovus Indiana, and Kirk Taylor discuss how sustainability and environmental stewardship have long been a part of agriculture. This week's podcast is titled, "**From Coal Mining to Community Development.**" To view the podcast click [here](#).

Kirk Taylor, Cofounder and President of Land Betterment noted, "Land Betterment has always been committed to providing long-lasting solutions to the communities in which we work. By upcycling previously impacted lands which have been decimated by thermal coal mining, we have the opportunity to better both the economy and society in

these impacted areas. Our Betterment Harvest division is tackling the needs of the community by providing sustainable opportunities and premium agriculture through the redevelopment of impacted lands.” Mr. Taylor concluded, “ Thank you so much to Mitch Frazier and the entire AgriNovus team for inviting Land Betterment to participate in your impactful podcast series.”

Betterment Harvest is building on the regional momentum in the Ag-tech industry by repurposing former impacted lands to bring technological advancements and innovation such as vertical and greenhouse farming developments to its region and communities in which it operates. Land Betterment is currently renovating and repurposing a closed elementary school into a vertical farm and plant propagation facility in Perry County, Kentucky. The Company is also in the planning phase of a commercial scale greenhouse farm, also in Perry County. These initial facilities will broaden the region’s breadth in the Ag-tech industry while also supporting local communities’ economic development and educational system and technical training initiatives.

#### About AgriNovus Indiana

The **AgriNovus Indiana** Ag+Bio+Science podcast is a weekly podcast where food, agriculture, science and technology converge. AgriNovus Indiana promotes and accelerates the growth of the agbioscience community. AgriNovus and its stakeholders work every day to make Indiana the home to unparalleled agbioscience talent and innovation. This means vision is as important as execution. #### About Land Betterment Corporation

**Land Betterment Corporation**, an Indiana Benefit Corporation and Pending B-Corp, is an environmental solutions company focused on fostering a positive impact through upcycling former coal mining sites to create sustainable community development and job creation. The Company utilizes a complete solution-based lifecycle program to restore and rehabilitate the environment and revitalize communities in need of change and opportunity. Land Betterment accomplishes this by identifying un-reclaimed, run-down and neglected coal mining sites, fixing the environment through reclamation and remediation, and then repurposing the land to support a sustainable business that serves the community. Land Betterment firmly believes that with real solutions it is possible for restoration of impacted areas to live side-by-side long term employment, while building sustainable and safe surroundings for communities and our planet.
