When a powerful earthquake hit Turkey and Syria on Feb. 5, homes crumbled to the ground, hundreds of other buildings collapsed, thousands of lives were lost, with numbers increasing each day, tens of thousands of people were displaced, and communities were changed forever.

When natural disasters strike, Lions are among the first to answer. Lions Clubs International Foundation (LCIF) quickly responded to empower their service by awarding a \$200,000 Major Catastrophe Grant to Lions in Turkey. Grant funds will enable Lions to provide immediate, short- and long-term relief to victims of one of the largest earthquakes to hit the region in more than 100 years.

"The devastation that this earthquake and the subsequent aftershocks brought is heartbreaking, and those affected by this disaster will need support in recovering and rebuilding for many days, weeks, months, and even years ahead," said LCIF Chairperson Douglas X. Alexander.

With this funding, Lions will participate in the immediate and short-term clean-up and repair efforts and work with local organizations on long-term reconstruction projects, filling any gaps in service.

"Lions live and serve in the communities most impacted, and we will be there to support the people there as long as they need us," Alexander said. "Funding from LCIF will help us make an even bigger difference for the people who've experienced so much loss during this unfathomable disaster."

According to International Disaster Database, natural disasters have increased by nearly 400% globally over the last 50 years. LCIF Disaster Relief Grants are designed to support Lions-led relief efforts during various stages of disaster relief operations. Lions are key

figures in their communities and play a vital role in this process. They are responsible for assessing the needs in their district to maximize their relief efforts. LCIF grants enable Lions volunteers to have a greater impact in their communities.
