

Lithium Energy has one of the highest grade graphite deposits globally

NEWS RELEASE BY LITHIUM ENERGY LTD

Melbourne, Victoria | February 06, 2023 03:30 PM Eastern Standard Time

Lithium Energy Ltd (ASX:LEL) chairman William Johnson caught up with Proactive following completion of a drilling program at its Burke graphite tenement. Initial assays from seven RC drill holes have confirmed the Burke deposit as one of the highest-grade graphite deposits globally. Multiple holes returned thick widths of exceptionally high-grade graphite content over 20% TGC.
