

# Meteoric Resources sees world-class potential at Caldeira rare earths project

DIGITAL ASSET DIRECT BY METEORIC RESOURCES NL

Melbourne, Victoria | December 19, 2022 12:00 PM Eastern Standard Time

Meteoric Resources NL (ASX:MEI) director Andrew Tunks is back with Proactive's Elisha Newell after the company added the Caldeira ionic clay rare earths project in Brazil to its portfolio. Meteoric's share price nearly doubled following the acquisition, which the company believes holds world-class potential. Tunks says the team will get boots on the ground early in the new year, while metallurgical test-work results are anticipated shortly.
