

# Musgrave Minerals strong assays from RC drilling at Big Sky

DIGITAL ASSET DIRECT BY MUSGRAVE MINERALS LTD

Melbourne, Victoria | November 22, 2022 02:00 PM Eastern Standard Time

Musgrave Minerals Ltd (ASX:MGV) managing director Rob Waugh chats with Andrew Scott from Proactive about strong assay results from reverse circulation (RC) drilling at the Big Sky deposit southwest of the Lena and Break of Day resources at Cue Gold Project in Western Australia's Murchison district. "The latest assay results from infill and extensional resource drilling at Big Sky continue to improve the confidence in the continuity of the deposit."
