

Nano One Materials announces joint agreement with Umicore

DIGITAL ASSET DIRECT BY NANO ONE MATERIALS CORP

New York, New York | December 22, 2022 08:30 AM Pacific Standard Time

Nano One Materials CEO Dan Blondal joined Proactive to share the announcement of its joint development agreement with Umicore. Blondal says both parties are aiming to leverage their respective technologies and know-how to further increase the throughput rate while reducing the costs and environmental footprint of cathode active materials (CAM) production for battery materials.
