

NickelSearch takes the drill rig to Carlingup's priority targets

DIGITAL ASSET DIRECT BY NICKELSEARCH LTD

Melbourne, Victoria | December 20, 2022 03:30 PM Eastern Standard Time

NickelSearch Ltd (ASX:NIS) managing director Nicole Duncan chats with Proactive to discuss drilling activity at the Carlingup Nickel Project, WA. The company will take the drill rig to high-priority targets like Javelin, Sexton and RAV8 South prospects as it tests highly conductive electromagnetic plates that hint at massive sulphides. Down-hole electromagnetic (DHEM) surveys will be completed on select holes and the program is planned so that any visual encouragement can be followed up quickly.
