

OpsGuru expands capabilities to help Canadian companies accelerate digital transformation through Strategic Collaboration Agreement with AWS

Expanded multi-year agreement furthers OpsGuru's cloud solution capabilities and service offerings

NEWS RELEASE BY OPSGURU

Vancouver, BC | January 18, 2023 09:00 AM Eastern Standard Time

OpsGuru, a Carbon 60 Company and a leading Canadian cloud consulting organization, today announced it has signed an expanded multi-year strategic collaboration agreement (SCA) with Amazon Web Services (AWS). This multi-year agreement builds on OpsGuru's existing AWS expertise and further allows the organization to accelerate digital transformation initiatives for the benefit of Canadian companies.

"This expanded agreement is a natural next step for OpsGuru's long-standing collaboration with AWS," says John Witte, President & CEO of Carbon60. "For years, OpsGuru and AWS have collaboratively empowered Canadian companies to navigate their cloud transformation with impactful results. With this agreement in place, OpsGuru is excited to deliver even more AWS customer-centric solutions to existing and new customers, tailored to support their unique business goals."

As an AWS Premier Tier Service Partner in the AWS Partner Network (APN), OpsGuru is continuously adding to its key AWS competencies and holds five AWS competencies including AWS Migration Consulting Competency, AWS SaaS Consulting Competency, AWS DevOps Consulting Competency, AWS Networking Consulting Competency, and AWS Microsoft Workloads Consulting Competency. OpsGuru's team maps their deep technical expertise with solutions and leadership in the cloud computing consulting industry.

"With OpsGuru's leadership, we have created a resilient, scalable and secure compute platform that can support diverse workloads ranging from finance reporting, resource planning and operational management," says Miller Dussan, Vice President, Technology at Equinox Gold. "Equinox Gold is now on the accelerated path to support data-driven decision making, maximize efficiency in daily operations, and holistically leverage cloud-based technologies to drive business transformations."

"OpsGuru is a trusted member of the AWS Partner Network and we are pleased to expand our relationship through this strategic collaboration," says Eric Gales, Canada Country Manager at AWS. "AWS and OpsGuru share a commitment to empower Canadian companies in their cloud strategies and digital transformation journeys. By expanding our agreement, we are giving

customers a broader range of capabilities and offerings to accelerate their transitions to the cloud and drive innovation in Canada.”
