

# Provaris highlights benefits of compression for hydrogen transport

NEWS RELEASE BY PROVARI ENERGY LTD

## Melbourne, Victoria | May 25, 2023 10:15 AM Eastern Daylight Time

Provaris Energy Ltd (ASX:PV1) CEO Martin Carolan speaks with Proactive following completion of its 2023 Hydrogen Marine Transport Comparison Report, revealing the potential of compressed hydrogen in regional transport. This study solidifies the many advantages of compressed storage in the maritime transport supply chain, underscoring its cost-effective delivery method to support the European Commission's REPowerEU requirement for 10 million tonnes per annum imports by 2030.
