

Quantum eMotion launches Sentry-Q quantum-safe messenger platform

NEWS RELEASE BY QUANTUM EMOTION CORP

Toronto | February 03, 2023 12:18 PM Eastern Standard Time

Quantum eMotion CEO Francis Bellido joined Proactive's Natalie Stoberman to discuss the launch of the company's Sentry-Q quantum-safe messenger platform.

Bellido explained that the quantum-safe messenger platform is designed for the secure communication of large and complex messages, including entire database structures.

Sentry-Q will initially function as a cloud-based solution and will be progressively applied and evolved with hardware-based modules, such as PCI Express cards, mini-HSM devices and embedded processors, he added.
