

“Smart Cars” Cepton looking to use its patented lidar technology in the automotive industry

NEWS RELEASE BY CEPTON INC

Vancouver | May 29, 2023 01:41 PM Eastern Daylight Time

Cepton Inc chief financial officer Hull Xu joined Steve Darling from Proactive to share news about the company that is using its lidar-based solutions in a number of industries including automotive, smart cities and smart industry.

Xu told Proactive more about the company’s technology and also how the technology makes smart cars even smarter with embedded software, including cybersecurity, over-the-air updates, functional safety and multiple custom features.

The company has been awarded a series production program by General Motors and Cepton is currently in the execution phase and plans to start production by the end of this year. It is also engaged with other top global OEMs and is exploring opportunities in markets like smart cities, autonomous warehouses, and security.
