How to Claim Starburst Free Spins?

Due to Starburst being one of the most popular slots means, it is no surprise that free spins on it are extremely sought after. Usually, Starburst free spins are offered as welcome promotions, whether that be a deposit or no deposit. A no deposit offer means that players normally only need to create an account, players may sometimes have to enter valid card details. A deposit offer can go as high as the casino sites would like, but it simply means that when players make a deposit, they will receive free spins. However, Starburst free spins aren't only offered as welcome bonuses, they can be a part of regular promotions such as Refer a Friend or as loyalty/VIP rewards when a player has deposited a certain amount of money over time.

How Many Free Spins Can I Get On Starburst?

Many casinos offer Starburst free spins, but how many they offer and the requirements you must meet to claim them are at their own discretion. Some casinos are more generous than others meaning there may be more spins available or fewer restrictions and requirements. When claiming any bonus, it is vital that you fully read the terms and conditions.

20 Free Spins

20 free spins bonuses are probably the most common amongst casinos, even those who do not offer Starburst free spins. In comparison to others, this offer is the most likely to be a no deposit offer, which is when players only need to sign up (and sometimes enter a valid card) to claim it.

50 Free Spins

This kind of offer is quite rare to find when it comes to normal offers, however, it is fairly common on Starburst. Free spins from this kind of offers tend to be valued at around £0.10 each, players can increase the value of free spins but to do so will receive less, for example, if you wanted the spins to be £1 each, you would receive 5 free spins instead.

100 Free Spins

100 Starburst free spins offers are some of the highest ones you can claim, however, it is important to note that, like most casino promotions, these offers will likely come with wagering requirements. What this means is that when a player deposits and wins with free spins, they must wager their winnings a certain amount of times. This means if a player deposits £10 and the wagering requirements are 20x, they must wager £200 before any winnings can be withdrawn.

These offer restrictions and requirements vary depending on the site, so it is important to ensure you are reading the offer's full terms and conditions before claiming.
