

Synertec says start of final testing phase for Powerhouse technology is major milestone

DIGITAL ASSET DIRECT BY SYNERTEC CORPORATION LTD

Melbourne, Victoria | December 15, 2022 01:00 PM Eastern Standard Time

Synertec Corporation Ltd (ASX:SOP) managing director Michael Carroll speaks with Proactive soon after announcing the company has successfully integrated with Santos Limited's production and operating systems in Australia, supplying 100% of power, emissions-free, through its proprietary Powerhouse technology. He believes the technology offers a dual benefit in this particular instance, not only reducing fossil fuel consumption but also replacing and redirecting gas supply back into the gas network.
