

Taruga Minerals extracts up to 70% magnet rare earths in Morgans Creek tests

DIGITAL ASSET DIRECT BY TARUGA MINERALS LTD

Melbourne, Victoria | December 19, 2022 12:30 PM Eastern Standard Time

Taruga Minerals Ltd (ASX:TAR) CEO Thomas Line joins Proactive's Elisha Newell to discuss test-work results from Morgans Creek clay-hosted rare earth prospect in South Australia. The metallurgical process extracted up to 70% magnet rare earth oxides (MREO), 60% heavy rare earth oxides (HREO) and 59% total rare earth oxides (TREO). Line says the findings confirm easily leachable rare earths at Morgans Creek, boosting confidence ahead of optimisation and drilling in 2023.
