

# Titan Minerals maiden drilling delivers shallow copper-gold-molybdenum

DIGITAL ASSET DIRECT BY TITAN MINERALS LTD

Melbourne, Victoria | December 23, 2022 12:30 PM Eastern Standard Time

Titan Minerals Ltd (ASX:TTM) CEO Matthew Carr shares with Proactive the company's discovery of broad and shallow zones of copper-gold-molybdenum mineralisation. This came during its maiden drilling campaign at the Copper Ridge porphyry prospect in the Linderos Project in southern Ecuador. Eight diamond drill holes for 3,700 metres confirmed the presence of wide and shallow porphyry intervals with significant copper, molybdenum, gold and silver.
