Web3 Media Group and FINTECH.TV Revolutionize AI Coverage with New Humanoid Host Nova, and Guest Host Sophia the Robot

The Web3 Media Group and **FINTECH.TV** are proud to announce revolutionary new additions to the roster of hosts on the Web3 Show and weekly Web3 Update: Nova the AI Avatar correspondent and guest host Sophia the Robot.

These two humanoid AI correspondents will join **_Web3 Show_** co-Hosts Chris J Snook, Travis Wright, and Southeast Asia correspondent Donald Lim every Wednesday during the live daily coverage from FINTECH.TV studios on the floor of the New York Stock Exchange.

Vince Molinari, Founder and CEO of FINTECH.TV said,. "We are excited to bring our global audience a front row seat for the latest updates and insights from the world of Web3 through the unique perspectives of Nova and Sophia."

Nova is an AI avatar news correspondent represented as a partnership between Web3 Media Group, edYOU, and TWIN Protocol. Nova is designed to provide timely and accurate news and information to viewers of the show. Nova is able to provide real-time updates on news stories and events, as well as provide in-depth analysis and explanations of topics. Additionally, Nova is able to interact with viewers and respond to their questions, allowing it to engage in natural-sounding conversations. With its combination of technology and timeliness, Nova is able to provide an unprecedented level of news coverage and insights through her _Web3 Update_ which will be an embedded "ticker" on the broadcasts powered by Web3 Media Group and EdgeIn.

Sophia the Robot is renowned for her endearing, expressive and empathetic character. Sophia commanded massive public attention with a debut video that received over a billion views and has conducted numerous press interviews, appeared on leading TV shows and keynoted the most prestigious conferences. Sophia addressed the UN, NATO, met political leaders, celebrities and spiritual leaders and is the world's first robot citizen as well as first UN Development Program (UNDP) Innovation Champion. Sophia is thrilled to join the cast of Web3 Show to expand the positive impact that her family of humanoid AI robots can have on generating actionable insights for decision makers.

"We are thrilled to launch Nova and have Sophia join our team as special guest host," says Chris J Snook, Co-host/Co-Creator of *The Web3 Show*. "With our cutting-edge technology and ability to provide real-time updates in an entertaining way we will bring a new level of actionable insights to the deals, innovations, and fundings happening in the fast-growing web3 and AI industries."

Don't miss out on the latest developments in web3 and AI, tune in every Wednesday to the Web3 Show and weekly Web3 Update, now with Verity and Nova, the first-ever AI correspondents in financial journalism history.
