

Who Called Me From This Phone Number? 10 Best Ways to Find Out!

NEWS RELEASE BY COCOSOFT

Hacienda Heights, California | February 09, 2023 08:48 PM Eastern Standard Time

When an unknown number calls your phone, or you see an unfamiliar missed call, what's the first thing you do? Most people tend to call back to see if it's a friend, relative, or acquaintance. However, doing so isn't always the best because there might be a scammer/hacker on the other end of the line.

In such instances, it's best to consider finding out who called you from this phone number. This process involves using the unknown number to identify the caller's name, location, address, and social media profiles.

Checking who just called you is essential for several reasons. First, you'll be able to react promptly after knowing if it is an emergency or opportunity. You might also discover that the person who called was a long-lost love or friend. Finally, you can identify spammers and take appropriate steps, such as blocking them.

Nowadays, it's simple to know who called me because of the numerous online reverse phone lookup services. Here is our pick of the ten best ways to find out who called you.

1. [WhoCallMe.com](#) – Quickest Way To Know Who Called And Block Threats
2. [WhoseNumber.com](#) – Best Lookup Service with an Extensive Database to Search Phone Numbers
3. [WhatIsThisNumber.com](#) – Find out Who Is Calling me from This Number Quickly
4. [NumLooker](#) – The Most Dependable Phone Lookup Service
5. [CocoFinder](#) – Find Out Who Called You with Comprehensive Search Results
6. [Spokeo](#) – Efficient Phone Number Lookup Tool for Unknown Numbers
7. [Intelius](#) – Highly Secure and Private Reverse Phone Lookup Service

8. [USPhoneLookup.com](#) – Find Out Who's Calling for Free
9. [BeenVerified.com](#) – Best To Unmask Catfisher's Phone Number
10. [TruthFinder](#) – Best For Revealing Unknown Calling

1. WhoCallMe.com – Quickest Way To Know Who Called And Block Threats

[WhoCallMe](#) is a top-rated phone number lookup website that enables users to quickly identify threats and block them. This website is optimized for fast searches, and once you provide the target phone number in the search box, it'll only take a few seconds to generate relevant results.

Additionally, the WhoCallMe website generates detailed reports based on publicly available information. Using just the phone number, you can see who called you and their civil records, criminal records, and sex offender data, if any.

Highlights:

- **Phone Directory:** Provides additional information on phone number owners and phone carriers.
- **Who Called Me:** Look up unknown numbers to know who called and their contact details.
- **Discover the address of the person who called:** Identify the home or work address of the individual who called you with a simple reverse phone lookup.

Pros & Cons

Pros:

- Fast searches that only take a few seconds.
- Authentic and reliable reports that are available 24/7.
- Regularly updated servers ensure you get relevant results for your phone number queries.
- Anonymous searches that protect your privacy.

Cons:

- Service is only available to US-based users.

- You may have to pay a subscription fee to access fully detailed reports.

2. WhoseNumber.com – Best Lookup Service with an Extensive Database to Search Phone Numbers

[WhoseNumber](#) is an excellent reverse phone lookup website that gathers information from various public, state, and federal databases. This way, you can get vast and precise background information on who called you every time you look up a phone number.

When you look up this phone number on WhoseNumber, you can find out the caller's full name, age, employment history, address, and other information that is available to the public. Searching for who just called is straightforward using WhoseNumber. Just input the target phone number in the provided section and click "search" to get background information on the caller.

Highlights:

- **User-friendly Interface:** The website is easy to navigate and access on both mobile and desktop devices.
- **Vast Database:** Get detailed reports on the owner of the number from reliable sources.
- **Additional Lookup Service Available:** On top of reverse phone lookup, you get to check out the phone directory service and perform an area code lookup based on phone number or city.

Pros & Cons

Pros:

- High level of security to ensure the anonymity of searches.
- Reliable customer support
- Detailed reports on the target phone number's owner.

Cons:

- Some of the information shared on the website may come across as unnecessary.

3. WhatIsThisNumber.com - Find out Who Is Calling me from This Number Quickly

WhatIsThis Number is distinct from other websites on this list because it offers a purely free 'who called me' service. With this website, you can identify any phone number, whether it is a VOIP, mobile phone, or landline.

Furthermore, WhatIsThisNumber.com also uses a cutting-edge search algorithm that effectively identifies background information relevant to your search in seconds. This way you can quickly identify the name, email ID, alternative contact details, and social media profiles of the person who called you.

Highlights:

- **Free-to-use Service:** You don't have to pay a subscription fee to perform reverse phone lookups.
- **Helpful Guides:** Informative guides on correctly conducting a phone number lookup are available.
- **Secured Searches:** It uses a high level of data encryption and SSL certificate to safeguard your privacy.

Pros & Cons

Pros:

- Detailed reports provide virtually all the background information you need on your mysterious caller.
- An easy-to-use website with quick, efficient data retrieval.
- Unlimited free searches

Cons:

- Access to service is restricted in some areas.
- Background information from this website may not be 100% accurate.

10. TruthFinder – Best For Revealing Unknown Calling

TruthFinder is connected to vast public databases that allow it to retrieve timely and efficient background details on almost anyone when you perform a phone number lookup. This website has been around for 7+ years and has an A+ rating with the Better Business Bureau, meaning they are well versed in providing phone lookup services.

This tool can generate details such as the target person's full name, history, age, education, employment history, and any other publicly available information. It can also disclose details to any publicly registered or online businesses.

Unlike most search engines, TruthFinder also provides dark web scans that can uncover more background data on you, other people, and properties.

Highlights:

- **App for iOS and Android users:** facilitates quick searches for users
- **FCRA Compliant:** Truth Finder complies with all the set guidelines of the Fair Credit Reporting Act
- **People search** helps users find people's details using their names.
- **Reverse phone lookup** provides accurate data on unknown callers
- **Public records search:** This engine offers comprehensive information from public data sources.

Pros & Cons

Pros

- Unlimited searches on paid plans
- An easily navigable website with helpful educative content
- Includes updated information on reports
- Mobile apps available for both iOS and Android users

Cons

- No trial period offered

[Use TruthFinder to generate a detailed report of your unknown caller in seconds!](#)

Conclusion

Using a reverse phone search service is the most reliable and effective way to find out whose number is calling you. It eliminates the hassle of dealing with annoying robocalls, fraudsters, survey companies, and telemarketing calls.

With a good lookup service, you can control which calls to receive and ignore without risking any consequences. You'll know whether your caller is a potential customer, business partner, relative, or just another telemarketer looking to promote their brand.

The ten reverse phone number search services mentioned above are the leading options you can consider today. However, it's best to compare them to select the one fitting your situation.

For instance, some can be accessed by anyone internationally while others do not, or others can be free, and some require a paid subscription. Nonetheless, all the aforementioned tools can help you determine the identities of unknown callers, and it's totally up to you to decide the necessary action to take.
