The screenshot displays the Lumi user interface. On the left is a navigation sidebar with icons for Overview, Content (highlighted), Deployments, Groups, and Learners. The main area features a teal header with search and user icons. Below the header, there are two buttons: 'New Folder' and 'New H5P Content'. A large grey arrow points to the 'New H5P Content' button. Below the buttons is a search bar labeled 'My Workspace' with the text 'Search content...'. At the bottom, a table header is visible with a column labeled 'Name'. The text 'CLICK HERE TO START' is overlaid on the table header area.

Create a multiple choice quiz about the Northern Lights. Create **4** questions with **4** alternatives for each question. Output the questions with the question on the first line, the correct alternative on the next line and distractors on the following lines. Separate each question with an empty line. Do not add any labels, formatting or numbering. Do not assign letters to the alternatives.

“Please create a summary of **FRACTIONS**. Write it as five statements, but for each of the statements also create three incorrect statements so that the reader is challenged to find the five correct statements. Use this format: Write the correct statement on the first line and add three distractor statements on the next three lines. Use an empty line to separate sets of statements. Do not add any labels, formatting or numbering and no extra empty line below the correct statement. Output the answer as preformatted code.”

SUMMARY

<https://h5p.org/ai> (copy the following below and replace the underlined text with what you want)

"Create an H5P drag the words task about the northern lights. Include three paragraphs and 3 - 7 droppables per paragraph. Add explanations. Here is the format you need for follow:

Droppable words are added with an asterisk (*) in front and behind the correct word/phrase. You may add feedback for each droppable to be displayed when a task is completed. Use '+' for correct and '-' for incorrect feedback. Feedback should be enclosed between the two asterisks along with the droppable word itself.

Example:

H5P content is *interactive\+Correct! H5P is all about interactive content.\-Incorrect, H5P is actually all about interactive content.* and can be used to share rich content between websites.

Do not add any labels, formatting or numbering. Output the answer as preformatted code."
