

Knowledge2Empower

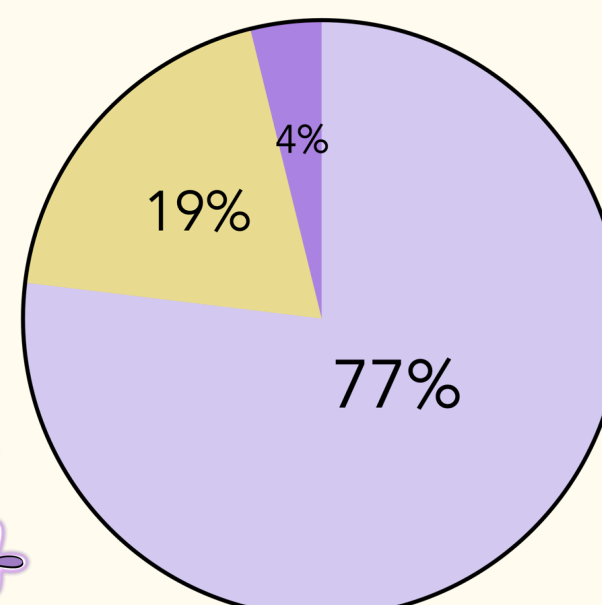

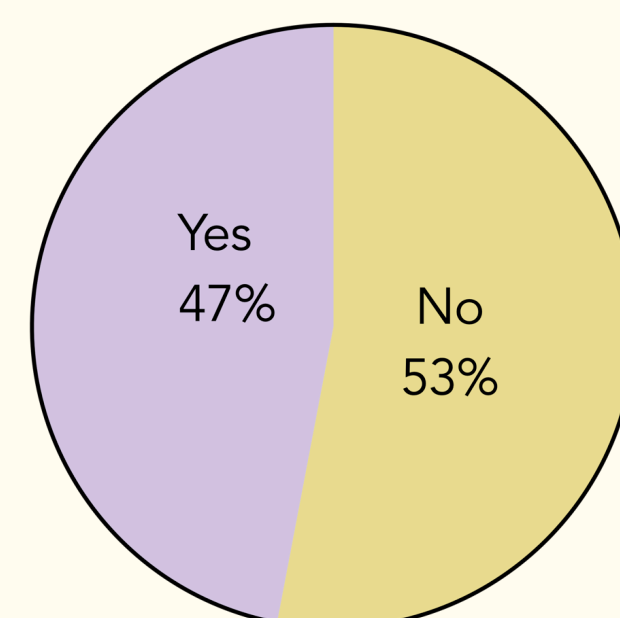

Empower your class with brain knowledge and be part of the movement to end epilepsy stigma!

We bring fun and interactive sessions to schools, so teachers and students can explore the amazing brain, learn about epilepsy, and discover how to help if someone has a seizure!

We surveyed 221 teachers:

Almost half of the teachers answered they have had a kid with epilepsy in their classroom!

The majority of them believe kids with epilepsy are treated differently due to lack of knowledge about epilepsy.
