

**DVSPORT REWIND** provides instant access to video in-game so coaches and players can review video and stats on the bench, in the team huddle, and in the locker room. Use live video to make adjustments and give players immediate feedback throughout the game. This is accomplished by leveraging existing DVSport Replay systems in every arena. DVSport provided its Rewind solution during the 2021 Men's NIT Tournament and is currently used by 17 NBA teams.

### ***DVSPORT Rewind Includes:***

- Standardized Video Tablet provided for each team
- Solution works on iPads and Windows 10 tablets (i.e. Microsoft Surface)
- Video of each team possession categorized by Game Clock
- Touchscreen playback tools that include FF, REW, Slow Motion, and Zoom
- Tag possessions for quick access and organization
- Video stored locally on tablet for on-line and off-line playback

### ***Advantages of DVSPORT Rewind:***

- **Proven Solution** - Used by NCAA Officials and on the bench by 17 NBA teams
- **No Infrastructure Costs** - Leverage existing DVSport Replay systems and only add two network cables from replay to each team bench
- **Cost Savings** - Identical solution for Men's and Women's Basketball
- **Standardized and Equitable** - One solution used by all conference teams will ensure all home and away teams have access to identical video and technology
- **Trusted Conference Partner** - DVSport has provided college basketball Replay Solutions for over 10 years
- **Premium Support** - DVSport will provide the same level of support to the teams as you have become accustomed to for replay which includes game day support and a hardware warranty if a device is damaged

# PLAY LIKE A PRO
