

Klisto Demo 1 Script

SETUP:

Run simulator and leave on iOS start screen with Klisto app icon

Run Chrome and login to Klisto.com

Step	Action on screen	Narration
1	Klisto logo	Klisto is the mobile database app for your iPhone and iPad that syncs with the cloud to help keep your data organized.
2	iPhone Start Screen Zoom in Tap Klisto Icon 	When you launch the app, it connects with Klisto.com to sync any changes. You can feel confident knowing you have the latest data. Please note that cloud syncing and Klisto.com access require a paid subscription.
3	TAP CLIENTS  First Name: Homer Last Name: Griffin Company: Springfield HVAC Phone: 215-555-1212	Here is a list of Customers I have created. I'll tap the add button and fill in a new record. The encrypted fields display a lock icon. We use strong AES 256 encryption to secure this data.
3a	Exit record	When I switch to the parent view my changes are automatically synced. You can also edit your data offline when internet access is unavailable, and sync changes later. All Klisto data is stored on your device.
