13th Annual Meeting of the American Society for Bariatric Surgery
Château Frontenac
June 12 - 15, 1996
COURSE DIRECTORS

**Joseph F. Amaral, MD**
Associate Professor of Surgery
Director of Laparoscopic Surgery
Brown University
School of Medicine
Providence, Rhode Island, USA

**George S.M. Cowen Jr., MD**
Professor of Surgery
University of Tennessee
Memphis, Tennessee, USA

**Georgeann Mallory, RD**
Executive Manager
American Society for Bariatric Surgery
Gainesville, Florida, USA

**Picard Marceau, MD**
Laval Hospital
Laval Medical School
Quebec, Canada

**Mary Lou Walen**
Chair, Allied Health
Program Coordinator
Pacific Bariatrics
San Diego, California, USA

GUEST SPEAKERS

**Claude Bouchard, PhD**
Department of Physiology and
Physical Activity Sciences Lab.
Laval University
Lipid Res. Unit and Diabetes Res. Unit
CHUL Res. Center and Department of Surgery
Laval Hospital
Québec, Canada

**Alex M.C. Macgregor, MD, FACS**
Gainesville Surgical Group
Gainesville, Florida, USA

**Lloyd MacLean, MD**
Professor of Surgery
McGill University
Montreal, Quebec, Canada

**Louis F. Martin, MD**
Professor of Surgery
Tulane Medical School
New Orleans, LA, USA
PURPOSE
The annual meeting brings together surgeons and other interested health care professionals involved in bariatric surgery. We will spend the four days in Quebec city sharing information and experiences between those practiced in the techniques and new-comers to the field. The primary goal in this ongoing learning process is continual improvement in the risk-benefit ratio for patients.

EDUCATIONAL OBJECTIVES
The objectives of this meeting are to prepare physicians and support staff to define, discuss and solve specific problems in the treatment of morbidly obese patients in order to achieve maximum long-term safety and effectiveness. Upon completion of the course, participants will be familiar with a broad area of patient care services. They will be able to identify and understand the specific needs of bariatric patients and assist in targeting their care in a coordinated medical team effort.

MEETING TIMES
Registration will begin Tuesday, June 11 from 4:30 pm to 9:30 pm.

The Allied Health Session will be held on Wednesday, June 12, from 8:00 am - 5:00 pm and the Physician Session will be held from 1:00 pm - 5:00 pm.

Sessions continue all day on Thursday. Friday, the regular session ends at 12:00 noon followed by lunch (12:00 noon - 1:00 pm) and the business meeting (1:00 pm - 2:00 pm). The afternoon is free thereafter until the evening banquet. The meeting concludes at 12:00 noon on Saturday, June 15. There will be a Walking Rallye within the city Saturday afternoon for all interested participants.

CONFERENCE MANAGEMENT
For further informations and requests, please contact:
Office of Continuing Medical Education
Faculty of Medicine, Room 1214
Laval University
Quebec, CANADA
G1K 7P4
or dial: Phone: (418) 656-5958
FAX: (418) 656-2465
E-mail: fmc@fmc.ulaval.ca

REGISTRATION INFORMATION
The registration fees include: instruction, continental breakfasts, refreshment breaks and lunches, Wednesday Welcome Reception, Thursday Cruise, and Friday Banquet. Other social events are optional and are noted in the Social Program section of this announcement.

The registration fees must be paid in U.S. or Canadian equivalent. The registration fees must accompany the registration form. Check must be made payable to Laval University. Visa and MasterCard are accepted.

Registration can be made by phone, by FAX or E-mail.
Phone Number: (418) 656-5958
FAX Number: (418) 656-2465
E-mail: fmc@fmc.ulaval.ca

CANCELLATION POLICY
Registration fee, less a $25 US administration charge, is refundable if the Office of Continuing Medical Education of Laval University is notified in writing at least ten (10) days prior to the start of the course.

ACCREDITATION
The Office of Continuing Medical Education of Laval University is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The Office of Continuing Medical Education of Laval University designates this continuing medical education activity for 21 credit hours in Category 1 of the Physician's Recognition Award of the American Medical Association and 8 hours of Category 1 credits for the Allied Health Session.

The main congress has also been approved for 2.1 Continuing Education Units (C.E.U.) and the Allied Health Session for 0.8 Continuing Education Units (C.E.U.).
QUEBEC CITY

Quebec is a beautiful city in a magnificent site. Just to the north are the Laurentians, the oldest mountain chain on the planet. To the south, the more recent Appalachians. Perched high on a cliff, the old fortified city looks down on the St-Lawrence River which opens up into the vast estuary leading to the ocean. This walled-city is the cradle of French civilisation in North America. You will find in Quebec, something different, peaceful and enjoy the pleasure of a simple promenade in the Old City. The choice is yours but the welcome is ours.

LODGING

The meeting will be held at Le Château Frontenac in the heart of Quebec City.

A block of sleeping rooms is being held at Chateau Frontenac. To receive the guaranteed conference rate of $175 CDN (single or double occupancy) plus tax, please make your reservation directly with the hotel before May 11, 1996. Request the group rate for this meeting, American Society for Bariatric Surgery Annual Meeting. Reservations received after May 11 will be accepted based on availability. The Laval University and American Society for Bariatric Surgery accept no further responsibility for lodging.

Reservation Phones: (418) 692-3861
1-800-441-1414
FAX Number: (418) 692-1751

FAX reservations must include the following information: Name, complete address, telephone number, FAX number, arrival date, departure date, credit card number and expiration date, guarantee for late arrival, and type of room (single, 1 person; double 2 people, 1 bed; double twin, 2 people, 2 beds).

TOURIST INFORMATION

Tourist information will be available at the hotel reception desk and at the meeting site. Information will also be available upon request at the Quebec Community Tourism and Congress Office:

Quebec Community Tourism and Congress Office
399, St-Joseph Street East
Québec (Québec) CANADA
G1K 8E2
Phone: (418) 522-3511
FAX: (418) 529-3121

DISCOUNTED AIR FARES

Delta Air Lines and Tower Travel Cruises Inc. are the official air carrier and agency for our meeting. To take advantage of Delta’s quality service, convenient schedules and special fares follow these steps:

1. Call Tower Travel Cruises at 800-881-8693 (Monday-Friday 9:00 am - 6:00 pm and Saturday 9:00 am - 4:00 pm EST).

2. If Tower Travel is closed call Delta at 800-241-6770 from 8:00 am - 11:00 am Eastern Time and refer to File Number: XD025. (Please try Tower Travel Cruises first).

If Delta does not serve your city, Tower Travel Cruises will recommend an alternate carrier. Please identify yourself as a Bariatric Surgery Conference participant.

* Please note: if you are traveling more than 400 miles, your flight (regardless of air carrier) will not arrive until late in the day. Therefore, you may want to travel on Tuesday June 11, 1996.

TRANSPORTATION

By plane
Aéroport international Jean Lesage
510, rue Principale
Ste-Foy (Québec), CANADA, G2E 5W1

By train or by bus
The Quebec City Central Station is located at a five minute drive from the Château Frontenac.

Car rentals
Several agencies can offer you car rental services. Car rental is available but surely not needed for sight seeing.

From the airport
The Jean-Lesage International Airport is about 15 kilometers (or a short twenty minutes ride) to the Château Frontenac. From the airport to downtown the taxi fare is around $22 one way. Shuttle service is available between the airport and the Hotel for about $8.50 one way trip.
WEDNESDAY, JUNE 12, 1996, 6:30 pm - 7:30 pm  
Welcome Reception  
Welcome reception at Le Château Frontenac. Dinner on your own. Exceptional restaurants in walking distance.

THURSDAY, JUNE 13, 1996, 10:00 am - 3:00 pm  
Quebec and its surroundings (optional)  
Our guide will meet you in the lobby of your hotel. You will depart for a guided bus tour of Old Quebec during which you will see the major points of interest such as: the Latin Quarter, the Plains of Abraham, the Citadel, the Parliament Building, Place d'Armes, Rue du Trésor and Place Royale.  
Following this, you will be transferred to the 274-foot high Montmorency Falls. The view of the falls from the cable car is enough to take your breath away...  
At the top, you will be received for lunch at the historic Manoir Montmorency. This manor once belonged to the Duke of Kent, father of Queen Victoria.  
After lunch, time for a relaxing walk along the cliff to see the falls.  
Then, a visit to the Island of Orleans. The island is interesting for its picturesque landscapes, and the lifestyle of its people, most of whom are farmers.  
Cost: $38 US or $50 CDN

THURSDAY, JUNE 13, 1996, 6:30 pm - 8:30 pm  
River Cruise  
Discover the mighty St-Lawrence River and enjoy the beautiful scenery while cruising aboard the Catamaran N/M Dufour II. Included in the fee for registrants. Guest tickets available $30 US or $40 CDN.

FRIDAY, JUNE 14, 1996  
Tennis and golf (optional)  
Tennis and golf can be arranged by local committee members upon request.

FRIDAY, JUNE 14, 1996, 7:00 pm  
Reception and dinner  
Reception and dinner at Le Château Frontenac. Surprise and music. Included in the fees for registrants. Guest tickets available $38 US or $50 CDN.

SATURDAY, JUNE 15, 1996, 1:30 pm- 5:30 pm  
Historic scavenger hunt in old Quebec (optional)  
Quebec is a beautiful city that can be discovered by walking through its narrow winding streets. We will help you with this by providing you with a map and a set of picture cards, showing some of the many points of interest in our city. As you wander along, look for costumed personages from another era... for they may hold a clue! Also, you must not forget to pick up the treasures, for they account for points.  
This hunt will prove that learning can be an exciting and fun experience, especially as a team. Let your captain lead the way to winning souvenir prizes.  
Cost includes: one way transport, planning, equipment, treasures, musicians, funicular tickets, prizes...  
Cost: $38 US or $50 CDN

Chairperson: Mary Lou Walen, San Diego, CA, USA

8:00 Opening remarks
Mary Lou Walen, Program Director, Pacific Bariatrics.

8:10 Pivotal differences in the dietary management of gastric restrictive procedures: Comparisons among the vertical banded gastroplasty (VBG), the adjustable silicone gastric banding (ASGB) and laparoscopic adjustable gastric banding (LapBand r)
J. Gabrielle Rabner, MS, RD and Robert J Greenstein, MD

8:30 Binge eating in morbidly obese gastric bypass surgery patients.
Melissa A. Kalarchian, BA, Robert E Brolin, MD, Lisa Bradley, MS, RD and G. Terence Wilson, PhD

8:50 Psychological testing in selection of the prospective bariatric candidate.
G.S. Marshall Cowan III, MS, Cynthia Buffington, PhD and George S.M. Cowan Jr., MD

9:10 Advertising a bariatric surgical practice without the media: The soft sell.
Kenneth B. Jones Jr., MD, FACS

9:30 The role of the adrenocortical hormones in obesity and disease.
Cynthia K. Buffington, PhD and George S.M. Cowan Jr., MD

9:50 Break

10:00 The problem with follow-up.
Kathleen E. Renquist, I(N)BSR Contributors

Ms Marg Allieri, RD and D. Michael Grace, MD

10:30 Age at onset of obesity: The impact of childhood sexual abuse.
Susan Vickerstaff, PhD, Cynthia K. Buffington, PhD, Tiffany Etheredge, Hollie Washington and George S.M. Cowan Jr., MD

10:45 Plan benefits vs utilization review denials: The secretary's role.
Norann McDaniel and Robert A. Rabkin, MD

11:00 Obesity: The last bastion of prejudice.
Sahale Flanagan and Lathan Flanagan, MD

11:15 Beleive it or not, sometimes lawyers are the good guys!
Walter Lindstrom Jr., Attorney at Law

11:20 A patient speaks: To the governor, the insurance commissioner, the department of rights for disabilities (ADA) and the US Department of Justice!
Barbara Horne and Neil E. Hutcher, MD

11:35 Lunch – Room: Bellevue

1:00 The post-surgical treatment of the bariatric patient: helping the patient succeed.
Gaye Andrews, PhD, MFCC

1:15 Day to day realities of treating bariatric patients in a small private practice.
Gretchen Walker, Stephen A. Schechner, MD and Christopher Weiss, MD

1:30 Identification and treatment for problems in performing activities of daily living due to morbidity.
Myrna Karsten, RN and Nancy Fisher OTR/RL

1:50 Metabolic/hormonal aberrations of the morbidly obese.
Lisa J. Pike, RN, Cynthia K. Buffington, PhD, and George S.M. Cowan Jr., MD

2:05 How well do we really know our patients? A psychological case study of a bariatric patient (follow-up report).
Melodie K. Moorhead, PhD

2:20 Nursing and postoperative complications: Recognition, prevention and treatment.
Rebecca Walker, RN, Lisa Pike, BS, RN and George S.M. Cowan Jr., MD

2:35 Beyond bariatric surgery: Complications we fail to address.
Jacquelyn K. Smiertka, RN and Bruce H. MacPherson, MD

2:55 Break

3:00 Bone and muscle loss following bariatric surgery: Methods of prevention.
David M. Scruggs, MS, RD, Cynthia K. Buffington, PhD and George S.M. Cowan Jr., MD

3:15 Treatment of bariatric surgery patients with anorectic medications.
Leslie Jester, CRNP, BSN, Alan C. Wittgrove, MD and G. Wesley Clark, MD

3:30 The role of the nutrition support team after bariatric surgery: Impact on vitamin and protein status.
Leslie Patterson, RD, Debbie Dobbins-Pasini, RN and Mark Jaroch, MD

3:50 The psychology of bariatric surgery: Analytic case studies in long term follow-up.
Joan DiGregorio, PhD and Norman Samuels, MD

4:10 The benefits of personal experience.
Barbara Hancock and Toni Zabica

4:45 Panel Discussion
This Course is designed to provide each attendee with new information as well as new approaches to earlier information in the practice of bariatrics and bariatric surgery in a friendly, informal climate with candid, honest, open interchange and discussion with well-known experts in the field.

The Goal is to increase and enhance the primary and re-operative technique and patient management knowledge base which each bariatric surgeon needs to optimize his/her everyday practice.

**Wednesday, June 12, 1996**

1:00  Brief Introductory Comments by the Course Director and Moderator  
George S.M. Cowan, Jr., MD

1:05  How to Manage Psych Problems Arising Within a Bariatric Surgery Practice  
Salvadore Maddi, PhD

1:35  How to Gather Information in a Bariatric Surgery Practice, Analyse it, Write it up for Publication: A Practical Overview for the Practitioner  
George S.M. Cowan, Jr., MD

2:15  Break

2:30  **DEBATE**  
To Divide the Stomach Versus not Dividing the Stomach in Bariatric Surgery  
For Division:  M.A.L. Fobi, MD  
For Non-Division:  Kenneth B. Jones, MD

3:15  Break

3:30  **HOT BOX SESSION II**  
Tough example cases from attendees and moderator will be "thrown at" each of panelists to answer candidly and thoroughly. Throughout, the panel will seek to develop a consensus on basic principles globally useful in re-operative bariatric surgery  
Otto Willbanks, MD, Peter Salmon, MD, M.A.L. Fobi, MD, Alex Macgregor, MD and Ross Fox, MD

4:45  Brief summation by the course director and moderator  
George S.M. Cowan, Jr., MD
Thursday, June 13, 1996

7:45  Introduction

SESSION I: PHYSIOLOGY OF OBESITY
Moderator: Picard Marceau, MD

8:00  Psychological status of the morbidly obese.
G.S. Marshall Cowan, III, MS, Cynthia K. Buffington, PhD, M. Marshall Graney, PhD, Susan Vickerstaff, PhD and George S.M. Cowan, Jr., MD

8:15  Existence of metabolic differences among intraabdominal fat depots from morbidly obese women.
P. Mauriege, PhD, A. Marette, PhD, C. Atgie, PhD, C. Bouchard, PhD, G. Theriault, MD, L.J. Bukowiecki, PhD, P. Marceau, MD, S. Biron, MD, A. Nadeau, MD and J.P. Despres, PhD

8:30  Candidate genes and morbid obesity.
F. Krempler, MD, E. Hell, MD, F. Becher, MD and W. Patsch, MD

8:45  Visceral obesity is correlated with reduced GLUT4 glucose transporter expression in morbidly obese premenopausal women.
André Marette, PhD, Pascale Mauriege, PhD, Claude Atgie, PhD, Claude Bouchard, PhD, Germain Theriault, MD, Ludwik Bukowiecki, PhD, Picard Marceau, MD, Simon Biron, MD, André Nadeau and Jean-Pierre Despres, PhD

9:00  Basic Science Lecture:
Genetic basis of obesity and visceral obesity
Claude Bouchard, PhD

10:00 Break

SESSION II: POSTSURGICAL PHYSIOLOGICAL CHANGES
Moderator: Joseph F. Amaral, MD

10:30  Peptic ulcer following gastric restrictive surgery.
A.M.C. Macgregor, MD, N.E. Pickens, MD, E.K. Thoburn, MD, T.E. Burns, MD, D.G. Maico, MD, G.F. McNeeley, MD and J. Stork, MD

10:45  Gastroesophageal reflux in the obese.
Barry L. Fisher, MD and Kenneth Madsen, MD

11:00  The long-term effect of vertical banded gastroplasty (VBG) on Barrett's esophagus in the morbidly obese.
Mervyn Deitel, MD and Nadine Norman, MD

11:15  Hiatus herniorrhaphy collis anti-reflux gastroplasty - preliminary report.
Jose C. Torres, MD and Mark A. Shina, MD

11:30  Treatment of respiratory insufficiency of obesity with vertical banded gastroplasty (VBG). *
Kendall A. Boone, MD, Joseph J. Cullen, MD, Edward E. Mason, MD, David H. Scott, BS, Cornelius Doherty, MD and James W. Maher, MD

11:45  Sexuality Study.
Mario Camps, BS, Emmanuel Zorvos, MD, Sarah Goode, RN and Alexander S. Rosemurgy, MD

12:00  Lunch – Room Jacques Cartier

SPECIAL LECTURE
Legislative initiatives for the morbidly obese.
Louis F. Martin, MD

SESSION III: METABOLIC SEQUELAE OF OBESITY SURGERY
Moderator: George Cowan, MD

1:00  Fasting intestinal motility is normal in obese subjects, but is changed after weight reduction with intestinal bypass.
Erik Naslund, MD, Per Helstrom, MD and Lars Backman, MD

1:15  Change in ethanol absorption before & after distal Roux Y gastric bypass.
Mark Jaroch, MD

1:30  Effect of abdominal lipectomy on lipid profile, glucose tolerance and blood pressure in patients with truncal obesity. *
Lena Cazes, MSc, Mervyn Deitel, MD and Ronald H. Levine, MD

1:45  Lipid lipoprotein changes in morbidly obese males following bariatric surgery.
Cynthia K. Buffington, PhD, Thomas Hughes, MD, G.S. Marshall Cowan III, MS and George S.M. Cowan Jr., MD

2:00  Changes in vitamins and minerals with extended vs regular gastric bypass surgery.
David S. Scruggs, MS, RD, Cynthia K. Buffington, PhD, Lisa J. Pike, RN, G.S. Marshall Cowan, III, MS and George S.M. Cowan, Jr., MD

Sherman C. Smith, MD, Charles B. Edwards, MD and Gerald Goodman, MD

2:30  Lipid status after distal Roux Y gastric bypass.
Mark Jaroch, MD, Debbie Dobbins-Pasini, RN and Leslie Patterson, RD

2:45  Break

SESSION VIII: BILIOPANCREATIC BYPASS
Moderator: Robert E. Brolin

7:45 Growth hormone releasing hormone-induced GH release before and after meals in obese subjects after biliopancreatic diversion.
R.M. Tacchino, MD, L. DeMarinis, MD, A. Mancini, MD, D. Valle, MD, A. Bianchi, MD, T. Liberale, MD, V. Sciamanna, MD and M. Castagneto, MD

8:00 Effects of biliopancreatic diversion on bone.
Picard Marceau, MD, Stefane Lebel, MD, Simon Marceau, MD, Regent St. Georges, MD, Marcel Dumont, MD, Frederic-S. Houle, MD and Simon Biron, MD

8:15 Effects of biliopancreatic bypass (BPB) on sleep-related breathing disorders.
Simon Martel, MD, Pierre Leblanc, MD, Frederic Series, MD and Simon Biron, MD

8:30 Effects of weight loss after biliopancreatic diversion on liver morphology.
Simon Biron, MD, Simon Marceau, MD, Carl Dejoie, MD, Frederic-S. Houle, MD, Marcien Fournier, MD and Picard Marceau, MD

8:45 Hastened gastric emptying after parietal gastrectomy and duodenal switch.
Frédéric-Simon Hould, MD, Marc Lagace, MD, Picard Marceau, MD, Martin Potvin, MD, Roch-André Bourque, MD and Simon Biron, MD

9:00 Biliopancreatic diversion with a duodenal switch.
Douglas S. Hess, MD and Douglas W. Hess, MD

9:15 Biliopancreatic limb obstruction in rYGBP at or proximal to the jejunojejunoanostomy: A potentially deadly catastrophic event.
Kenneth B. Jones Jr., MD

9:30 Break

SESSION IX: LAPAROSCOPIC BARIATRIC SURGERY
Moderator: Louis Martin, MD

10:00 Laparoscopic gastric bypass: 2 1/2 years results
Alan C. Wiffgrove, MD and G. Wesley Clark, MD

10:15 Comparison of costs of weight lost (dollars/pound) examining laparoscopic gastric banding versus open gastric bypass over first six months.
Lloyd Champagne, MD, Louis F. Martin, MD, Kenneth J. Buechter, MD, Luis Phillip Mosquera, MD and Saundra MacD. Hunter, PhD

10:30 Weight loss comparison between vertical banded gastroplasty (VBG), open adjustable silicone gastric banding (ASGB) and laparoscopic adjustable silicone gastric banding (LASGB)
Mitiku Belachew, MD and Benoît Monami, MD

10:45 The laparoscopic adjustable gastric band (LapBand®): Observations from the preliminary Mount Sinai experience of a nationwide, multicenter, FDA moderated study.
Robert J. Greenstein, MD, J. Gabrielle Rabner, MS, RD, S. Green, RN, G. Hodge-Penn, RN, S. Kaiser, MD and N.A. Haïpem, MD

11:00 Does laparoscopic gastric banding demands sophisticated pressure measurement device.
Martin Fried, MD, PhD, Marie Peskova, MD, ScD

11:15 A safe and effective technique for laparoscopy in the severely obese.
Cornelius Doherty, MD and James W. Maher, MD

11:30 The use of laparoscopic instruments in open bariatric surgery.
Joseph F. Amaral, MD

11:45 VBG with the round ligament of the liver (RLL): Evaluation (bioimpedance) of body composition in the first six months.
Arthur Garrido Jr., MD, Renata Leme, Joel Faintuch, MD, Reginaldo Colimbra, MD, Roberval Cabaizt, MD, Joaquir Gama-Rodruques, MD and Henrique Pinotti, MD

Return to: Office of Continuing Medical Education, Faculty of Medicine, Room 1214, Laval University, Québec, CANADA, G1K 7P4
13TH ANNUAL MEETING OF THE AMERICAN SOCIETY FOR
BARIATRIC SURGERY

QUESTIONNAIRE

The purpose of this questionnaire is to aid in determining the number and types of bariatric procedures being performed. It will be compared with earlier questionnaires to illustrate trends in bariatric surgery. REGARDLESS OF WHETHER YOU PLAN TO ATTEND THE MEETING, we would appreciate your filling out and returning the Questionnaire to:

Office of Continuing Medical Education
Faculty of Medicine, Room 1214
Laval University
Quebec (Canada), G1K 7P4

1. The procedure I currently perform most often is
   - a. gastric bypass, anterior loop gastrojejunostomy
   - b. gastric bypass, posterior loop gastrojejunostomy
   - c. gastric bypass, anterior Roux-en-Y reconstruction
   - d. gastric bypass, posterior Roux-en-Y reconstruction
   - e. gastroplasty, greater curvature outlet
   - f. horizontal gastroplasty, lesser curvature outlet
   - g. horizontal gastroplasty, mid-stomach outlet
   - h. gastrogastrostomy
   - i. vertical gastroplasty
   - j. bilio pancreatic diversion with gastric bypass
   - k. bilio pancreatic diversion with gastrectomy

Answers 2-9 should be in relation to the procedure selected in Question 1

2. I routinely
   - a. divide the stomach
   - b. staple the stomach in continuity with 1 application of the double-raw stapler
   - c. staple the stomach in continuity with 2 applications of the double-raw stapler
   - d. staple the stomach in continuity with 1 application of the quadruple-raw stapler

3. I do ______ do not ______ reinforce the staple line

4. I measure volume of the pouch at
   - a. < 20 ml
   - b. 20 to 50 ml
   - c. > 50 ml
   - d. estimated, not measured

5. I gauge pressure during volume measurement at
   - a. < 30 cm above level of the cricoid
   - b. 31 to 50 cm above level of the cricoid
   - c. 51 to 69 cm above level of the cricoid
   - d. 70 cm or greater above level of the cricoid
   - e. estimated, not gauged

6. I calibrate the outlet at
   - a. < 10 mm (30F) in diameter
   - b. 11 mm (32F) in diameter
   - c. 12 mm (34F) in diameter
   - d. > 12 mm in diameter
   - e. estimated, not calibrated

7. I reinforce the outlet at
   - a. 5.5 cm
   - b. 5.0 cm
   - c. 4.5 cm
   - d. 4.0 cm
   - e. estimated, not calibrated

8. I reinforce the outlet
   - a. with running Prolene suture
   - b. with Marlex mesh
   - c. with ______
   - d. I do not reinforce the outlet

9. I do approximately _____ cases per month
   (_____ new cases and _____ re-operations)

10. In my series, I have approximately
    _____ gastric-bypass patients
        _____ gastroplasty patients
        _____ other bariatric patients

11. I think the surgeon's fee should be __________

12. Currently I am using an
    - a. IBM compatible personal computer
    - b. Apple or Macintosh personal computer
    - c. other __________

13. Currently I am experiencing difficulties with
    - a. obtaining Medicare/Medicaid type approval for my bariatric patients
    - b. obtaining private insurance approval
    - c. other __________

Thank you for taking the time to complete this questionnaire
The American Society for Bariatric Surgery
**Poster Session**

**Room: Verchères**

**P1** Near total gastric bypass for morbid obesity: A preliminary report in 173 patients
James A. Sapala, MD
M. Andrew Sapala, MD
Michael H. Wood, MD

**P2** Overcoming pitfalls in the establishment of a bariatric surgical aftercare program.
D.M. VanNostrand, MD
Melodie K. Moorehead, PhD
Norman Samuels, MD
Joan DiGregorio, PhD

**P3** Use of intrathecal narcotics for postoperative analgesia in bariatric patients.
Thomas Farrell, MD
Eugene W. Rumsey Jr., MD
Leo J. Murphy, MD
Laurence K. Tanaka, MD
George G. Zorn, MD
Mary C. Murphy, MD
Eileen C. Seibert, MD
Mary Lou Walen

**P4** Deep venous thrombosis thrombophlebitis, and/or pulmonary embolism in patients after gastric bypass operation for obesity.
Mal Fobi, MD
Ron Holness, MD
Hoil Lee, MD
DeGaulle Cabinda, MD

**P5** The long term effects of the distal Roux-En-Y on weight loss and metabolism
Adrian J. Heap, MD

**P6** Short-term results of a non-randomized prospective study comparing three bariatric operations in Mexican patients.
Miguel F. Herrera, MD
Jorge Gonzalez-Barranco, MD
Guillermo Dominguez, MD
Mirella Marquez, MD
Arturo Maldonado, MD
Rosa Gamino, SW
Juan A. Rull, MD

**P7** Adjustable silicon gastric banding - detection of leakage with thallium 201.
Karl Miller, MD
L. Rettenbacher, MD
Emanuel Hell, MD

**P8** Intestinal length vs lipids: Before and after gastric bypass surgery.
Soichico Uramatsu, MD
Cynthia K. Buffington, PhD
George S.M. Cowan Jr., MD

**P9** Microorganisms in the distal stomachs of gastric bypass patients long term.
Soichico Uramatsu, MD
George S.M. Cowan Jr., MD
Lloyd Hiler, MD
Cynthia K. Buffington, PhD

**P10** Effects of Fentanyl, Alfentanil and Sufentanil on the cardiovascular stress response to tracheal intubation in the morbidly obese patient.
Jeanne Learman, CRNA, MS

---

**EXHIBITS HOURS**

**Room: Frontenac**

**Thursday, June 13, 1996**
7:00 AM until 5:00 PM

**Friday, June 14, 1996**
7:00 AM until 12:30 PM

**Saturday, June 15, 1996**
7:00 AM until noon
