

GENERAL NOTES	
1.	All substitutions are accepted upon approval by designer.
2.	Do not substitute LED strobes with SGM fixtures.
3.	Do not substitute hazer with DF-50.
4.	All LED strobes must have a white LED chip.
5.	All atmospheric effect placement to be finalized on site by designer.
6.	Vendor to supply PDF of the plot with fixture IDs, PDF of the patch, and a patched MA3D showfile no less than 2 weeks prior to first show date.

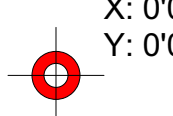

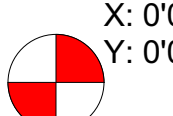

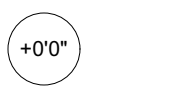

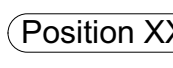

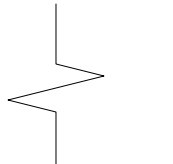

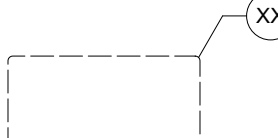

CONSOLE NOTES	
1.	All GrandMA console and NPU software versions: 3.9.60.37.
2.	All consoles and NPUs to have specified software version installed prior to designer arrival.
3.	All consoles to include canned air, microfiber cloth, and clean soft paint brush.
4.	All consoles and NPUs must be in 100% working condition.
5.	No lighting control substitutions will be accepted.
6.	All MA Lighting products must be genuine and purchased from an authorized MA Lighting dealer.

FOH NOTES	
1.	Vendor must supply competent, english speaking, FOH tech who is knowledgeable about the installed system, networking, troubleshooting, and MA Lighting products available whenever the designer is on site.
2.	All consoles and networking to be installed and working prior to designer arrival.
3.	Vendor to provide network switch and spare CAT5e cables for desgner to connect to MANet, ArtNet, sACN, KiNet, ect. networks.
4.	Vendor to provide long range wireless access point located at FOH for designer to remotely control the console.
5.	All passwords and login information should be clearly labeled at location of the wireless access point.
6.	FOH must have enough desk space for two (2) GrandMA Full-Size consoles (main and backup), as well as other equipment provided by the designer.
7.	Vendor to provide two (2) office chairs compatable with the height of the console.
8.	Main and backup console to be set on top of the smaller road case lid (flipped upside down.) Refer to FOH detail page.
9.	If FOH is not center- A console must be placed in the middle of the venue for programming prior to designer arrival.

STAGING NOTES	
1.	All ballasting, staging, substructure, etc. to be painted black, unless otherwise specified.
2.	Invert hoists whenever possible.
3.	Cable swags should never be hung in front of any visable truss or hanging positions.
4.	Structure is for reference only. Refer to vendor's drawings for an accurate representation. Structure shoould never be built based on these designer drawings.

TYPICAL FIXTURE	
	Moving Light
	Multicell Fixture

TYPICAL FIXTURE ORIENTATION	
	Moving Light -To be hung so home position allows fixture to tilt US/DS.
	Multicell Fixture -To be focused perpendicular to truss. -Start cell always SR or on top. -DSE mounted LED strips focused US to light performers.
	Truss Toner -To be mounted inside truss if possible, otherwise mounted outside to graze truss.
	Static Fixture -Underhung fixtures to be focused 45° towards audience. -Face mount fixtures to be focused perpendicular to truss.

ANNOTATION LEGEND	
	Datum Marker -Measured from CL/PL Origin
	Hoist Rig Point -Measured from CL/PL Origin
	Platform Height Marker
	Detail Marker
	Break Line
	Detail Selection
