

DPR

Do you sell to the European Union, or monitor people there, but don't have a base in the EU?

If 'YES', it's likely you will need to appoint a Data Protection Representative as a result of Article 27 of GDPR

Failing to appoint a Representative when required gives rise to a **potential fine of up to €10,000,000 or 2% of your company's global turnover**. A failure to appoint a Representative is also immediately apparent to any EU Authority looking at your business: if you don't have a publicly-available EU contact address or a listed Representative, you are immediately in breach of Article 27.

DPR Group is the leading provider of Data Protection Representative services in the EU. Based in Dublin, Ireland, and established in all 28 EU member states, we ensure our clients have a visible and capable presence in Europe. The key to our service is providing the best experience possible to those data subjects who raise queries; at a time when they are concerned about the actions of our data controller/processor clients, our convenience, professionalism and responsiveness reassures those individuals that their privacy is protected.
