¹ Batting average, on-base percentage, slugging percentage, on-base plus slugging, gross production average, strikeouts per plate appearance and walks plus hit by pitch per plate appearance are all based upon 2.0 plate appearances per games played by the team.

² Gross Production Average - weighted alternative to OPS that gives greater weight to OBP and reduces the result to something more easily recognizable. Formula: $((1.8 * OBP) + SLG) / 4$

¹ Opponents Batting Average, Earned Run Average, Strikeout-to-Walk Ratio, Strikeouts per 7, Walks per 7, Innings and Walks plus Hits per Innings Pitched are all based upon player having pitched 10% of the total team innings pitched for that season.

² Complete Game % and Shutout % are based upon player starting at least 15% of the total team games played for that season.

³ Shutout % is the percentage of games started that resulted in a complete game shutout

¹ Opponents Batting Average, Earned Run Average, Strikeout-to-Walk Ratio, Strikeouts per 7 innings, Walks per 7 innings, and Walks plus Hits per Innings Pitched are based upon a minimum of 125 batters faced

² Complete Game Percentage, Shutout Percentage, and Winning Percentage are based upon a minimum of 8 decisions

³ Shutout Percentage is the percent of games started that resulted in a complete game shutout
