Order must be received by April 1st for your item to be ready for the football season.

BUILDING THE COMET TRADITION... BRICK BY BRICK

Dear Comets Past, Present and Future:

As you probably know, our football, baseball, and track outdoor complex has received a major overhaul in the past few months. The new and improved facilities will enhance our programs and will provide tremendous opportunities for our student-athletes for years to come. As a part of the facility improvement, our athletic department is going to have two different brick paver areas in the new complex to commemorate our strong athletic tradition. We hope you choose to take part in this!

There are three different sizes of bricks to consider, as well as marble benches that can be engraved. Several different examples are below, but you are welcome to be creative in your wording. The back of this sheet is the order form. If this interests you, please fill it out and return it to me at the high school. Please note that all bricks are limited in the number of lines and characters per line. All fees are one-time fees, not annual. All orders must be turned in by April 1, 2009 in order to be sure the bricks are in the ground before next football season. However, pavers can still be ordered after April 1st and beyond.

Paver programs are very popular with high schools in our area, and I envision this will be no different for our community. We hope you are interested in honoring a Comet player (past or present), someone from your family, a former teacher or coach, or another Comet fan with a paver in "Comet Country." Any money that is raised by this project will stay directly in the Comet Athletic Department as we continue our efforts to upgrade our weight room, among other projects.

If you have any questions, please let me know.

Joe Alstat
Athletic Director

Brick Examples

If the family name or the wording desired contains multiple A's, M's, W's or Y's, one space on that particular line must be sacrificed to compensate for the added space required by those larger letters.

Punctuation marks, hyphens and spaces between words are counted as 1 complete space. Periods & commas are quite large due to the sandblast process and unfortunately take up as much space as a normal alphabet letter.
