

National Signing Day- Participation Criteria

Our National Signing Day Ceremonies hosted by Lincoln-Way East recognizes student-athletes that participate in a sport at our school and have committed to competing in athletics at the college level.

All student-athletes participating must be in good academic standing and approved by the administration.

A student that is signing to play a sport that we offer at Lincoln-Way East has to participate with that team as a senior (try-out and/or active team member) to be recognized.

This is a great commitment that we are very excited for and proud of. Student-Athletes must make sure they are 100% certain that the school they are representing in the signing ceremony is their ultimate and final choice.

Student-Athletes that are making a commitment to playing at a Division III or non-athletic scholarship institution can participate in our February or May Signing Day, unless their Senior athletic season is complete.

Any student-athlete that is making their college commitment should communicate with their varsity coach and Mr. Vander Kooi.
