

Dear Parent/Guardian:

Luther North College Prep is taking the important step to protect your child by providing cardiovascular testing for students aged 12-25 on school grounds on 3/9/2017.

Sudden Cardiac Arrest is caused by an abnormality in the heart's electrical system or structure that abruptly stops the heartbeat. It is the leading cause of death on school campuses. According to the American Heart Association, every 2-3 days a young athlete dies from Sudden Cardiac Arrest in the US. In 80% of the cases, there are absolutely no warning signs or symptoms leading up to a cardiac arrest.

To be proactive about your child's health, Wimbledon Athletics will be performing EKG and echocardiography testing to detect undiagnosed heart conditions and vascular ultrasound to identify vascular conditions to which athletes are prone. This preventative testing is important in identifying both life-threatening conditions and those that may affect a student's well-being down the road.

[CLICK HERE](#) to learn more about this testing.

Wimbledon Health Partners will bill your health insurance for this testing, accepting what your carrier deems usual and customary. As required by law, WHP will bill for any deductible or co-insurance owed. The health and safety of your child is WHP's priority, not causing you financial harm. Please call **Customer Relations** at [\(855\) 200-8262](tel:8552008262) to verify your benefits and to find out how you might qualify to receive testing at little to no cost.

To register your student, please visit www.wimbledonhealthpartners.com/registration

If you would like to select an appointment time to reserve a spot, [CLICK HERE](#)

Please contact me with any questions you have. We look forward to contributing to the health and safety of your students!
