SUDDEN CARDIAC ARREST IS CAUSED BY AN ABNORMALITY IN THE HEART'S ELECTRICAL SYSTEM OR STRUCTURE THAT ABRUPTLY STOPS THE HEARTBEAT

- One out of 100 kids has an undetected heart condition
- Every 2-3 days, a young athlete dies from SCA in the US
- Sudden Cardiac Arrest is fatal in 95% of the cases

"I think most parents are unaware of potential heart problems that could affect their children, like I was."

-Teresa Hunt

FOR 80% OF KIDS, SUDDEN CARDIAC ARREST WILL BE THE FIRST SYMPTOM THAT SOMETHING IS WRONG

"Having the option to address an issue detected through a heart exam is a blessing. Without this testing, we wouldn't have known about Jordan's condition until it was too late."
