

Welcome Parents and Athletes

We are excited to introduce a new and easier process for completing the health history forms required for sport participation, called PrivIT e-PPE (electronic Pre-Participation Evaluation). PrivIT e-PPE replaces the paper-based forms with an electronic Pre-Participation Evaluation solution for submitting and managing health information. PrivIT e-PPE is compliant with international privacy laws, including HIPAA and COPPA, ensuring your child's information is secure.

This new process will help us increase the health and safety of our student athletes and enhance the security and accessibility of the health information when needed.

The three major benefits of using PrivIT e-PPE you will experience are:

1. Simplifies the pre-participation process - Paper to PrivIT e-PPE

- **Easy** to complete health history questionnaire from your computer or mobile devices
- **Review/Renew/Update** anytime

2. Improves Athlete Safety and Mitigates Risk

- **Comprehensive history** pinpointing any **factors** that might contribute to injury
- **Real time health information available on sidelines**

3. Ensures Privacy and Availability of an Athlete's Health History

- **Accessible to parent/guardian and authorized school personnel at anytime**
- **Parents/athletes can use for other activities or organizations**

By using PrivIT e-PPE to manage your child's health history information, your biggest benefit will be in subsequent years, because you will only have to update the information in PrivIT e-PPE as opposed to completing all the paper-based forms again. [Click here](#), for step-by-step instructions explaining how to access PrivIT e-PPE.

If you have any questions regarding this process please contact your school's athletic department. To contact technical support, please visit <http://support.priv-it.com>, Monday-Friday 7:00 AM – 7:00 PM EST, Saturday 7:00 AM – 3:00 PM EST (closed on Sunday).
