WHO SHOULD USE THIS GUIDE

This guide answers important questions for four groups of people involved in the NCAA initial-eligibility process:

- High school students who hope to compete in college sports at an NCAA Division I or II school.
- Parents, guardians and family members of high school students.
- High school counselors and athletics administrators.
- High school and nonscholastic coaches.

HAVE A QUESTION ABOUT NCAA ELIGIBILITY?

Find answers to many typical questions about NCAA eligibility by:

- Reading this guide.
- Searching frequently asked questions at ncaa.org/studentfaq.
- Visiting ncaa.org/playcollegesports.
- Visiting the Help section of eligibilitycenter.org.
- Calling the NCAA Eligibility Center at 877-262-1492.
Dear college-bound student-athlete:

I am glad you are interested in pursuing your education and sport at one of our many member schools. College sports provide an excellent opportunity to compete at a high level while working toward a degree that will lead to lifelong achievement. Through our commitment to academics, well-being and fairness, we at the NCAA strive to make sure your college experience shapes your personal development and future success. No matter what career path you choose, your college degree will serve you far beyond your final game.

This guide equips you with information about academic requirements, but also informs you of what to expect when becoming a student-athlete. I hope it helps educate you, your family and high school administrators about the initial-eligibility process for NCAA Divisions I and II schools. If you are interested in NCAA Division III, please visit ncaa.org/d3 or read page 26 to learn more about the initial-eligibility process in Division III.

We are committed to supporting students across all three divisions on their road to success. At the NCAA national office, staff members want to ensure high school athletes meet standards that will best prepare them to succeed in college. Initial eligibility determines your ability to receive an athletics scholarship and to practice and compete in your first year as a full-time college student.

I encourage you to take an active role in the process of preparing for college. More than 1,100 schools in the NCAA sponsor tremendous academics and athletics programs, so it is never too early to start looking for your best fit. It would be beneficial to work closely with your high school counselors, coaches, parents/guardians and mentors as you transition to college.

If you have any questions, please reach out to us. My staff in the NCAA Eligibility Center strives to make your registration and certification experience positive and helpful.

I wish you the best of luck as you embark on this important journey, and look forward to your future success.

All the best,

Mark Emmert
NCAA President

HELPFUL HINTS

- Visit ncaa.org/playcollegesports to learn more about opportunities available at NCAA schools.
- Know the academic standards for Division I and Division II.
- Complete NCAA-approved courses throughout high school. Your school counselor can help you find and select courses.
- Register with the NCAA Eligibility Center at eligibilitycenter.org before your sophomore year if you are interested in playing college sports.
- After four semesters of high school, ask your counselor to send official transcripts from all high schools you have attended to the NCAA Eligibility Center.

WHAT IS THE NCAA?

The National Collegiate Athletic Association is an organization dedicated to providing a pathway to opportunity for college athletes. More than 1,100 colleges and universities are members of the NCAA. Those schools work together with the NCAA national office and athletics conferences across the country to support nearly half a million college athletes that make up 19,500 teams competing in NCAA sports.

The NCAA’s diverse members include schools ranging in size from those with hundreds of students to those with tens of thousands. The NCAA’s current three-division structure was adopted in 1973 to create a fair playing field for teams from similar schools and provide college athletes more opportunities to participate in national championships.

Among the three NCAA divisions, Division I schools generally have the biggest student bodies, manage the largest athletics budgets and offer the highest number of athletics scholarships. The Division II approach provides growth opportunities through academic achievement, learning in high-level athletics competition and a focus on service to the community. The Division III experience offers participation in a competitive athletics environment that pushes college athletes to excel on the field and build upon their potential by tackling new challenges across campus.

To learn more about the pathway that’s right for you, visit ncaa.org/divisions.
**NCAA SPORTS**

The NCAA conducts 90 national championships in 24 sports across Divisions I, II and III, with 45 championships administered for women and 42 for men. That means almost 54,000 student-athletes participate in NCAA championships each year.

From signature events like the NCAA March Madness® men’s and women’s basketball tournaments to rowing, rifle, softball and skiing, the NCAA administers championships to ensure student-athletes have a first-class experience. But the NCAA also is committed to quality events for everyone involved, from the coaches to the fans and broadcast audiences.

It is important to the NCAA that our championships have a positive impact on the communities that host them. The NCAA hosts youth clinics and various fan events to complement the competition — creating what is hoped to be a championship experience for everyone involved.

**SCHOLARSHIPS**

NCAA Divisions I and II schools provide more than $2.7 billion in athletics scholarships annually to more than 150,000 student-athletes. Division III schools do not offer athletics scholarships.

Only about 2% of high school athletes are awarded athletics scholarships to compete in college. Of the student-athletes participating in sports with professional leagues, very few become professional athletes. A college education is the most rewarding benefit of your student-athlete experience.

Division I schools may provide tuition and fees, room and board, books and other expenses related to attendance at the school. Division II full scholarships cover tuition and fees, room, board and course-related books and supplies. Most student-athletes who receive athletics scholarships receive an amount covering a portion of these costs. Many student-athletes also benefit from academic scholarships, NCAA financial aid programs such as the NCAA Division I Student Assistance Fund and need-based aid such as federal Pell Grants. You must report all financial aid you receive to your NCAA school’s financial aid office. If you have questions about what financial aid can be accepted, contact your NCAA school’s financial aid office and athletics department for help.

Division I schools may provide you with multiyear scholarships. Additionally, Division I schools may pay for you to finish your bachelor’s or master’s degrees after you finish playing NCAA sports. NCAA rules require you to be registered with the NCAA Eligibility Center in order to go on an official visit, receive a written offer of financial aid or sign a National Letter of Intent.

If a school plans to reduce or not renew your aid, the school must notify you in writing by July 1 and provide an opportunity for you to appeal. In most cases, the head coach decides who receives a scholarship, the scholarship amount and whether it will be renewed.

Contact the NCAA school you hope to attend for more detailed information about NCAA financial aid rules.
**NATIONAL LETTER OF INTENT**

By signing a National Letter of Intent, you are agreeing to attend a Division I or II college for one academic year. NLI member institutions agree to provide athletics financial aid to you for a minimum of one academic year as long as you are admitted to the school and are eligible for financial aid under NCAA rules.

The NLI is voluntary and not required for you to receive financial aid or participate in sports. Signing an NLI ends the recruiting process because coaches are prohibited from recruiting student-athletes who have signed NLIs with other NLI member institutions.

If you sign an NLI but decide to attend another college, you may request a release, but it is the school’s discretion to grant your NLI release or not. If you sign an NLI with one school but attend a different school, you lose one full year of eligibility and must complete a full academic year at the new school before being eligible to compete. If you have questions about the NLI, visit nationalletter.org.

**THINKING OF GOING PRO?**

There are more than 480,000 NCAA student-athletes, and **fewer than 2%** will go pro in their sport.

For the rest, the experiences of college athletics and the life lessons they learn along the way will help them as they pursue careers in business, education, athletics administration, communications, law, medicine and many more fields. Education is a vital part of the college athletics experience, and student-athletes treat it that way.

Overall, student-athletes graduate at higher rates than their peers in the student body, and those rates rise each year. For more information on graduation rates, search for “graduation rates” on ncaa.org.
Our Three Divisions
The NCAA’s three divisions were created in 1973 to align like-minded campuses in the areas of philosophy, competition and opportunity.

- **Athletics Scholarships**
  - **Multiyear, cost-of-attendance athletics scholarships available**: 58% of athletes receive athletics aid
  - **Partial athletics scholarship model**: 59% of athletes receive athletics aid
  - **No athletics scholarships**: 80% of athletes receive nonathletics aid

**What are the eligibility requirements in each division?**
College-bound students who want to compete at a Division I or Division II school must meet standards set by NCAA members. For Division III, athletes must meet the admissions standards set by the school. Eligibility standards can be found at ncaa.org/student-athletes/future.

**How is each division governed?**
NCAA schools develop and approve legislation for their own division. Groups of presidents and chancellors lead each division in the form of committees with regularly scheduled meetings.

**Did you know?**
- **Division I** student-athletes graduate at a higher rate than the general student body.
- **Division II** is the only division with schools in Alaska, Puerto Rico and Canada.
- **Division III**’s largest school has 24,702 undergraduates. The smallest? 284.

Learn more at ncaa.org/about.
GUIDE FOR THE COLLEGE-BOUND STUDENT-ATHLETE

Time Management

What Division I student-athletes should expect.

Time management is a key component of any college student’s success, but it is especially important for students who play Division I sports. From classes to competition, and everything in between, the student-athlete schedule stays busy year round. Know what awaits before you step foot on the field.

What takes up a Division I student-athlete’s time?

Did you know?
These are considered countable athletically related activities (CARA). NCAA rules limit the time student-athletes can spend on these activities each week. Check with your campus athletics department for more information.

Competition
Practice
Strength and conditioning
Supplemental workouts
Film review

Did you know?
These activities do not count toward a team or student-athlete’s countable athletically related activities limit.

Academic meetings
Injury treatment/prevention
Sports psychologist sessions
Nutritionist sessions
Prospective student-athlete host duties
Team fundraising
Media activities
Community service
Compliance meetings

Time spent on activities per week

*Medians collected from the 2015 NCAA GOALS study.

168 hours

15.5 Socializing/Relaxing
38.5 Academics
80 Other (e.g. sleep, job, extracurriculars)
34 Athletics

Two-thirds of Division I student-athletes said they spend as much or more time on athletics during the offseason as during their competitive season.

*Based on the 2015 NCAA GOALS study.

During a typical day of competition, Division I student-athletes report spending anywhere from 4.4 to 8.6 hours on their sport. For the full breakdown by sport, visit ncaa.org/time-management.

*Based on a 2015 survey of Division I student-athletes.
Time Management

What Division II student-athletes should expect.

Time management is a key component of any college student’s success. From classes to competition, and everything in between, the student-athlete’s schedule is busy. Know what awaits when you step foot on campus.

What takes up a Division II student-athlete’s time?

Did you know?
These are considered countable athletically related activities (CARA). NCAA rules limit the time student-athletes can spend on these activities each week. Check with your campus athletics compliance administrator for more information.

Did you know?
These activities do not count toward a team or student-athlete’s countable athletically related activities limit.

Two-thirds of Division II student-athletes said they spend as much or more time on athletics during the offseason as during their competitive season.

1 in every 8.3 Division II student-athletes will participate in a NCAA championship during their college experience.

One-third of Division II student-athletes work during the academic year for about nine hours per week on average.
Time Management

What Division III student-athletes should expect.

Time management is a key component of any college student’s success. From classes to competition, and everything in between, the student-athlete’s schedule is busy. Know what awaits when you step foot on campus.

Division III student-athlete’s time each week
(numbers listed in hours)

- 40.5 (24%) Academics
- 28.5 (17%) Athletics
- 81.5 (49%) Other (e.g., sleep, extracurricular)
- 17.5 (10%) Socializing

168 hours

Did you know?

Division III student-athletes note their athletics experience did not hinder their academic and co-curricular pursuits. In fact, it had a positive effect on their collegiate experience. (approximate percentages)

- 25% Study abroad
- 45% Work at least 8.5 hours per week
- 60% Want to attend graduate school
- 67% Involved in an internship/externship

Half of Division III student-athletes said they spend as much or more time on athletics during the offseason as during their competitive season.

1/2

The Division III experience includes:

- Academics
- Internship/externship
- Work
- Graduate school
- Competition
- Practice
- Strength and conditioning
- Film review
- Injury treatment and prevention
- Team fundraising
- Compliance meetings
- Teamwork
- Time management
- Leadership

INITIAL ELIGIBILITY

Initial-eligibility standards help ensure you are prepared to succeed in college. The eligibility process also protects the fairness and integrity of college sports by ensuring student-athletes are amateurs.

If you want to practice, compete and receive an athletics scholarship during your first year at a Division I or II school, the NCAA Eligibility Center must certify you as eligible. Eligibility for Division III is determined on campus. Throughout the process, NCAA Eligibility Center staff members partner with students and their families, as well as high school administrators and coaches, to guide you on your journey.

REMEMBER

As a college-bound student-athlete, you are responsible for your eligibility — that means planning ahead, taking high school classes seriously and protecting your amateur status. It can be a difficult first step, but the benefits of being a student-athlete are worth the effort.
**High School Timeline**

**9th Grade**
- Start planning now! Take the right courses and earn the best grades possible.
- Find your high school’s list of NCAA-approved core courses at eligibilitycenter.org/courselist.
- Sign up for a free Profile Page at eligibilitycenter.org for information on NCAA requirements.

**10th Grade**
- If you fall behind academically, ask your counselor for help finding approved courses you can take.
- Register for a Profile Page or Certification Account with the NCAA Eligibility Center at eligibilitycenter.org.
- Monitor your Eligibility Center account for next steps.
- At the end of the year, ask your counselor at each high school or program you attended to upload your official transcript to your NCAA Eligibility Center account.

**11th Grade**
- Check with your counselor to make sure you are on track to complete the required number of NCAA-approved courses and graduate on time with your class.
- Take the ACT or SAT and submit your scores to the NCAA Eligibility Center using code 9999.
- Ensure your sports participation information is correct in your Eligibility Center account.
- At the end of the year, ask your counselor at each high school or program you attended to upload your official transcript to your NCAA Eligibility Center account.

**12th Grade**
- Complete your final NCAA-approved core courses as you prepare for graduation.
- Take the ACT or SAT again, if necessary, and submit your scores to the NCAA Eligibility Center using code 9999.
- Request your final amateurism certification beginning April 1 (fall enrollees) or Oct. 1 (winter/spring enrollees) in your NCAA Eligibility Center account at eligibilitycenter.org.
- After you graduate, ask your counselor to upload your final official transcript with proof of graduation to your NCAA Eligibility Center account.
- **Reminder:** Only students on an NCAA Division I or II school’s institutional request list will receive a certification.
1. Profile Page: If you plan to compete at a Division III school or currently are not sure in which division you want to compete, create a Profile Page. If at any time you wish to pursue a Division I or II path, you’ll be able to transition to a Certification Account. (You cannot move from a Certification Account to a Profile Page.)

2. Certification Account: You must be certified by the NCAA Eligibility Center to compete at an NCAA Division I or II school. Before you can make official visits or sign a Division I or Division II National Letter of Intent, you must have a complete Certification Account (including payment or fee waiver).

For Certification Accounts, please allow between 30 to 45 minutes to register completely. If you need to exit and come back at a later time, you can save and exit once your account is created.

Have eligibility or registration questions?

If you have questions about your eligibility or the registration process not addressed within this guide, reach out to us! We’re here to guide you through your journey. Here’s some additional sources of information that may help:

- Search our frequently asked questions at ncaa.org/studentfaq.
- Domestic students: Call us toll free at 877-262-1492.
- International students: Use our International Contact Form (ncaa.org/contactinternational) to submit questions.

---

### Important Information for My NCAA Eligibility Center Account

**Date I registered:**

**My NCAA ID#:**

**My email address:**

**My high school(s) attended:**

**Date my six-semester transcript was sent:**

**Date my test score was sent:**

**Date my final transcript (with proof of graduation) was sent:**
If you received a waiver of the ACT or SAT fee (not the same as a U.S. state voucher), you are eligible for a waiver of the certification account registration fee. After you complete your registration, ask an authorized official from your current high school to submit your fee waiver documentation online.

Please note: You must be a U.S. citizen or a foreign national taking the SAT in the United States or its territories. Students from countries other than the United States or its territories are not eligible for a fee waiver.

Below are some items you should have with you as you create an account at eligibilitycenter.org:

- **Valid Email for Student**
  To register, you need a valid email address that you check regularly and will have access to after high school. The NCAA Eligibility Center uses email to update you about your account throughout the process. Please note: If you have a sibling who has previously registered, you will need to use a different email address than the one in your sibling’s account.

- **Basic Student Personal Information**
  This includes information such as your name, gender, date of birth, primary and secondary contact information and address.

- **Basic Student Education History**
  We will ask you to provide details about all secondary and high schools and additional programs you have attended in the United States and internationally. Be sure to include all schools, regardless of whether you received grades or credits. If you attended ninth grade at a junior high school located in the same school system in which you later attended high school, do not list the ninth-grade school.

- **Student Sports Participation History**
  Select the sport(s) you plan to participate in at an NCAA school. For Certification Accounts, we will ask you to provide details for any expenses or awards you received, any teams you have practiced or played with or certain events in which you participated outside of the traditional high school season. We also ask about any individuals who have advised you or marketed your skills in a particular sport. This information helps the NCAA Eligibility Center certify your amateur status when requested by you or an NCAA school.

- **Payment (Certification Accounts Only)**
  Your Certification Account is complete only after your registration fee is paid (or upon submission of a fee waiver, if you are eligible). You may pay online by debit, credit card or e-check. The registration fee for students in the United States, U.S. territories (includes American Samoa, Guam, Northern Mariana Islands, Puerto Rico and U.S. Virgin Islands) and Canada is $90. The fee for all other international students is $150. Profile Pages do not have a fee.

  All fees are nonrefundable once you have successfully registered. If you completed a duplicate registration and paid your registration fee twice, you may be eligible for a refund of the duplicate registration fee. To receive a refund, you will need to complete and submit an NCAA refund form.

Fee Waiver
If you received a waiver of the ACT or SAT fee (not the same as a U.S. state voucher), you are eligible for a waiver of the certification account registration fee. After you complete your registration, ask an authorized official from your current high school to submit your fee waiver documentation online.

Please note: You must be a U.S. citizen or a foreign national taking the SAT in the United States or its territories. Students from countries other than the United States or its territories are not eligible for a fee waiver.

**ACT**
In order to be eligible for an ACT fee waiver, you must meet one of these indicators of economic need:

- Your family receives low-income public assistance.
- Your family income is at or below the Bureau of Labor Statistics Low Standards Budget.
- You are a ward of the state.
- You live in a foster home.
- You are homeless.
- You participate in free or reduced-price lunch program at school.
- You participate in a federally funded TRIO Program such as Upward Bound.

**SAT**
In order to be eligible for an SAT fee waiver, you must meet one of these indicators of economic need:

- You are enrolled in a program for the economically disadvantaged such as AVID or TRIO.
- Your family’s annual income falls within the levels listed by the U.S. Department of Agriculture (USDA) for free or reduced-price lunches.
- Your family receives public assistance.
- Your family lives in federally subsidized public housing.
- You live in a foster home.

**Home School Students**
If you are a home school student in the United States or U.S. territories who cannot afford to pay the test fees, you must provide proof of eligibility to your local high school or agency administrator. Only a school or agency administrator can provide you with the fee waiver card for the appropriate test.
TEST SCORES

Every time you register for the SAT or ACT, use the NCAA Eligibility Center code 9999 to send your scores directly to us from the testing agency.

Please note:
• Tests scores on transcripts can NOT be used in your academic certification.
• The NCAA Eligibility Center does not accept SAT subject test scores.

ACT
An ACT sum score is calculated by adding your English, math, reading and science subscores.

SAT
A combined SAT score is calculated by adding your critical reading and math subscores.

Sliding Scales
On our sliding scale, you can see your SAT or ACT score and the GPA that is required for that score.

• For the Division I sliding scale, see page 20.
• For the Division II sliding scale, see page 24.

Did you take the SAT more than once? You may take the SAT or ACT an unlimited number of times before you enroll full time in college. If you take either test more than once, the best subscore from different tests are used to give you the best possible score. We will use your highest SAT and/or ACT score in your academic certification to provide you the best result possible.

Puerto Rico
If you plan to enroll in a Division II school in Puerto Rico, you may use a minimum combined score on the Prueba de Aptitud Academica verbal and math reasoning sections of 730 to satisfy the test-score requirement. For more information, visit ncaa.org/student-athletes/future/puerto-rico.

Testing Dates
The NCAA Eligibility Center accepts national SAT and ACT exams, and state-administered ACT exams. Domestic testing dates apply to the U.S., U.S. territories, Puerto Rico and Canada. All others are under the international dates.

After completing four semesters of high school, ask your school counselor to upload an official transcript to your NCAA Eligibility Center account. If you have attended more than one high school or took courses from more than one program, the NCAA Eligibility Center needs an official transcript from all high school(s) or program(s) you attended. You also will need to ask your school counselor to send your final transcript with proof of graduation once you have completed high school. Please note: The NCAA Eligibility Center does not accept grades from one high school or program transcribed on another high school’s transcript.

High schools have the capability to upload transcripts directly to a student’s account for free from the High School Portal. As with other electronic transcript providers, this process is much quicker than using the U.S. Postal Service or any overnight delivery method. Students should contact their school counselor to ask for their transcript to be uploaded or sent electronically through one of the approved e-transcript providers listed below:

• National Transcript Center.
• Parchment.
• Scrip-Safe/Credentials.
• Scribbles Software.
• USMO ET.
• XAP.
• Naviance.
• State of Georgia: DIRECT.

In order to send a transcript by U.S. mail or through an overnight or express delivery service, please use the appropriate address on page 1.

• International students: For information on proper submission procedures for transcripts and academic records, see page 29 or visit ncaa.org/international.

Note: Some approved programs that have a list of NCAA-approved courses are not credit-awarding institutions and, therefore, do not produce official transcripts. If you attend an approved program that does not award credit, a grade report from the program should be submitted.

A state high school equivalency test (e.g., General Educational Development) may be accepted as proof of graduation under certain conditions, but it will not satisfy requirements for core courses, GPA or ACT/SAT scores. The equivalency test may be accepted as proof of graduation if taken after the graduation date of your class and before full-time enrollment into any college or university. You will need to mail an official copy of the applicable certificate along with your state high school equivalency test scores to the NCAA Eligibility Center. You can contact your state education agency to request the certificate and test scores to be sent to the NCAA Eligibility Center.
**WHAT IS A CORE COURSE?**

NCAA schools require college-bound student-athletes to build a foundation of high school courses (core courses) to prepare them for the academic expectations in college.

For a high school class to be an NCAA-approved core course, it must meet these conditions:

1. Be a four-year college preparatory course in one of these subject areas:
   - English.
   - Math (Algebra I or higher).
   - Natural/physical science.
   - Social science.
   - Foreign language.
   - Comparative religion or philosophy.
2. Be taught at or above your high school’s regular academic level.
3. Receive credit toward high school graduation and appear on an official transcript with course title, grade and credit awarded.

Approved courses are added to your school’s list of NCAA-approved classes. Make sure you are taking courses on the approved list; ask your counselor if you need help.

**What is Not a Core Course**

Not all high school classes are NCAA-approved core courses. Some examples of courses that are not NCAA-approved core courses include:

- Courses in non-core areas, such as driver education, typing, art, music, physical education or welding.
- Courses that prepare students for the world of work or life, or for a two-year college or technical school, such as personal finance, consumer education or tech prep.
- Courses taught below grade level, at a slower pace or with less rigor or depth, such as basic, essential, fundamental or foundational courses.
- Credit-by-exam courses.

**Core-Course Credits**

You can earn credit for a core course only once. If you take a course that repeats the content of another core course, you earn credit for only one of these courses and the higher grade counts toward your core-course GPA. For more information on core-course credits, visit [ncaa.org/student-athletes/future/core-courses](http://ncaa.org/student-athletes/future/core-courses).

**Courses Taken Before High School**

If you take a high school class such as Algebra I or Spanish I in eighth grade, the class may count toward your 16 core courses if it appears on your high school’s list of NCAA-approved courses and is shown on your high school transcript with grade and credit.

**Courses Taken After High School**

For information about courses taken after high school, see page 20 for Division I or page 23 for Division II.

**College Courses, Dual-Enrollment Courses and Dual-Credit Courses**

College courses may be used to satisfy NCAA core-course requirements if the courses are awarded a grade and credit by the high school for any student and meet all other requirements for core courses. College courses must be placed on the student’s high school transcript with clarification of college completion.

**REMEMBER**

Find your high school’s list of NCAA-approved courses at [eligibilitycenter.org/courselist](http://eligibilitycenter.org/courselist).
NONTRADITIONAL AND ONLINE COURSES

Nontraditional courses are taught online or through distance learning, credit recovery, independent study, individualized instruction or correspondence methods.

Generally, for a nontraditional course to count as an NCAA-approved core course, it must meet all of the following requirements:

- The course must appear on the school’s list of NCAA-approved courses.
- A student in the course must have regular instructor-led interaction for the purpose of instruction, evaluation and assistance for the duration of the course. This may include, for example, exchanging emails between the student and teacher, online chats, phone calls, feedback on assignments and the opportunity for the teacher to engage the student in individual instruction.
- The course must have a defined time period for completion. For example, it should be clear whether the course is meant to be taken for an entire semester or a more condensed time period.
- The course should be clearly identified as nontraditional on the student’s official high school transcript.

A nontraditional course may not be approved for any of the following reasons:

- Does not have teacher-based instruction.
- Does not require regular and ongoing instructor-led interaction between the student and teacher.
- Does not require students to complete the entire course.
- Does not prepare students for four-year college class work.
- Does not have official student grade records.
- Does not meet NCAA core-course requirements.

When viewing the program’s course list, you will find information about any nontraditional programs or courses in the “Additional Information” box as seen below.

REMEMBER

Log in to your NCAA Eligibility Center account frequently to update your school information if you take courses from additional academic programs.

To find out if a nontraditional program or course is approved, go to eligibilitycenter.org/courselist to search the school or program’s list of NCAA-approved courses.
GRADE-POINT AVERAGE

The NCAA Eligibility Center calculates your core-course grade-point average based on the grades you earn in NCAA-approved core courses. Only your best grades from the required number of NCAA core courses will be used.

Your GPA is calculated on a 4.000 scale. Numeric grades such as 92 or 87 are changed to letter grades such as A or B. The NCAA Eligibility Center does not use plus or minus grades when calculating your GPA. Weighted honors or advanced placement courses may improve your core-course GPA but your high school must notify the NCAA Eligibility Center that it weighs grades in these classes.

In “Pass/Fail” grading situations, the NCAA Eligibility Center will assign your high school’s lowest passing grade for a course in which you received a “Pass” grade. For most high schools, the lowest passing grade is a D, so the NCAA Eligibility Center generally assigns a D as a passing grade.

Calculating Your Quality Points

In order to determine your quality points earned for each course, multiply the quality points for the grade by the amount of credit earned.

Examples:
• An A grade (4 points) for a trimester course (0.34 units):
  4 points x 0.34 units = 1.36 total quality points
• An A grade (4 points) for a semester course (0.50 units):
  4 points x 0.50 units = 2.00 total quality points
• An A grade (4 points) for a full-year course (1.00 units):
  4 points x 1.00 units = 4.00 quality points

The worksheets on pages 21 and 25 will help you to determine your core-course GPA.

As I reflect back on my career as a student-athlete, I would not have changed any of it for the world. Through the victories and many struggles, these past five years have taught me more about life that anything ever could. My university has not only helped me become a better student, tennis player and human being, but it has also opened doors for me I never thought possible.

Sam Perelman
Men’s Tennis, Old Dominion University
DIVISION I ACADEMIC STANDARDS

Division I schools require college-bound student-athletes to meet academic standards for NCAA-approved core courses, core-course GPA and test scores. To be eligible to practice, compete and receive an athletics scholarship in your first full-time year at a Division I school, you must graduate from high school and meet all of the following requirements:

1. Complete a total of 16 core courses in the following areas:

   - **ENGLISH**: 4 years
   - **MATH** (Algebra I or higher): 3 years
   - **NATURAL/PHYSICAL SCIENCE**: 2 years
   - **ADDITIONAL** (English, math or natural/physical science): 1 year
   - **SOCIAL SCIENCE**: 2 years
   - **ADDITIONAL COURSES** (Any area listed to the left, foreign language or comparative religion/philosophy): 4 years

2. Complete 10 of your 16 core courses, including seven in English, math or natural/physical science, before the start of your seventh semester. Once you begin your seventh semester, you must have more than 10 core courses completed to be able to repeat or replace any of the 10 courses used to meet the 10/7 requirement.

3. Complete the 16 NCAA-approved core courses in eight academic semesters or four consecutive academic years from the start of ninth grade. If you graduate from high school early, you still must meet core-course requirements.

4. Earn an SAT combined score or ACT sum score that matches your core-course GPA (minimum 2.300) on the Division I full qualifier sliding scale. Review the sliding scale on page 20 to ensure your score meets Division I requirements.

How to plan your high school courses to meet the 16 core-course requirement:

4 × 4 = 16
Academic Certification Decisions
An academic certification will be conducted to determine if you meet the Division I academic standards. Academic certifications are required for all college-bound student-athletes planning to compete at a Division I school. (An amateurism certification is also required; see page 27.) The following items are required in order to complete your academic certification:

- A final official transcript with proof of graduation.
- Official transcripts from all high schools attended.
- Test scores.
- No open academic tasks in your Eligibility Center Certification Account (see page 11).
- Be on a Division I school’s institutional request list.

Being placed on a school’s institutional request list notifies the NCAA Eligibility Center to complete an academic evaluation for you after all of your appropriate documents have been submitted.

If you are being recruited by a Division I school, below are the most common decisions you may receive once a certification has been completed.

### EARLY ACADEMIC QUALIFIER

If you meet specific criteria after six semesters of high school, you may be deemed an early academic qualifier for Division I and may practice, compete and receive an athletics scholarship during your first year of full-time enrollment. To be an early academic qualifier, you will need:

- A minimum ACT sum score of 75 or SAT combined score (math and critical reading) of 980.
- A core-course GPA of 3.000 or higher in a minimum of 14 core courses in the following areas:
  - Three years of English.
  - Two years of math.
  - Two years of science.
  - Two additional years of English, math or natural/physical science.
  - Five additional core courses in any area.

A final high school transcript must be submitted to the NCAA Eligibility Center after high school graduation for all early academic qualifiers.

### QUALIFIER

You may practice, compete and receive an athletics scholarship during your first year of full-time enrollment at an NCAA Division I school.

### ACADEMIC REDSHIRT

You may receive an athletics scholarship during your first year of full-time enrollment and may practice during your first regular academic term but may NOT compete during your first year of enrollment. You must pass either eight quarter or nine semester hours to practice in the next term.

### NONQUALIFIER

You will not be able to practice, compete or receive an athletics scholarship during your first year of enrollment at a Division I school.

What if I Don’t Graduate on Time?
In Division I, if you do not graduate on time (in four years/eight semesters), the NCAA Eligibility Center will still use your grades and coursework for the first four years/eight semesters for your certification. You will still need to provide proof of graduation (once you graduate) and you may not use any coursework taken after your high school graduation toward your certification.

What if I Don’t Meet the Division I Standards?
If you have not met all of the Division I academic standards, you may not compete in your first year at a Division I college. However, if you qualify as an academic redshirt, you may practice during your first term in college and receive an athletics scholarship for the entire year.

To qualify as an academic redshirt, you must graduate high school and meet all of the following academic standards:

- Complete 16 core courses.
- Earn an SAT combined score or ACT sum score matching your core-course GPA (minimum 2.000) on the Division I sliding scale (see page 20).
Courses Taken After High School

For Division I, only courses completed in your first eight semesters will qualify as core courses. If you graduate from high school on time (in eight semesters) with your incoming ninth-grade class, you may use one core course completed in the year after graduation (summer or academic year) before full-time collegiate enrollment. You may complete the core course at a location other than the high school from which you graduated as long as the course is taken prior to full-time enrollment at any college or university. A college course taken after high school graduation may be used toward your initial eligibility and awarded 0.5 units from your college transcript (unless awarded one full unit on your home high school transcript).

An additional core-course unit taken after on-time high school graduation cannot replace a course used to meet the core-course progression (10/7) requirement, but an additional core course after on-time graduation may replace one of the remaining six core-course units necessary to meet core-course requirements.

Sliding Scale for Division I

*Division I uses a sliding scale to match test scores and GPAs to determine eligibility. The sliding scale balances your test score with your GPA. Find more information about test scores on page 13 or visit ncaa.org/test-scores.*
This worksheet is provided to assist you in monitoring your progress in meeting NCAA initial-eligibility standards. The NCAA Eligibility Center will determine your academic status after you graduate. Remember to check your high school’s list of NCAA-approved courses for the classes you have taken or plan to take.

Use the following scale: A = 4 quality points; B = 3 quality points; C = 2 quality points; D = 1 quality point.

### ENGLISH (4 YEARS REQUIRED)

<table>
<thead>
<tr>
<th>10/7 COURSE TITLE</th>
<th>CREDIT X GRADE = QUALITY POINTS (MULTIPLY CREDIT BY GRADE)</th>
</tr>
</thead>
<tbody>
<tr>
<td>✓ Example: English 9</td>
<td>.50 A (1.5 x 4) = 6</td>
</tr>
</tbody>
</table>

**TOTAL ENGLISH UNITS**

**TOTAL QUALITY POINTS**

### MATHEMATICS (3 YEARS REQUIRED)

<table>
<thead>
<tr>
<th>10/7 COURSE TITLE</th>
<th>CREDIT X GRADE = QUALITY POINTS (MULTIPLY CREDIT BY GRADE)</th>
</tr>
</thead>
<tbody>
<tr>
<td>✓ Example: Algebra I</td>
<td>1.0 B (1.0 x 3) = 3</td>
</tr>
</tbody>
</table>

**TOTAL MATHEMATICS UNITS**

**TOTAL QUALITY POINTS**

### NATURAL/PHYSICAL SCIENCE (2 YEARS REQUIRED)

<table>
<thead>
<tr>
<th>10/7 COURSE TITLE</th>
<th>CREDIT X GRADE = QUALITY POINTS (MULTIPLY CREDIT BY GRADE)</th>
</tr>
</thead>
</table>

**TOTAL NATURAL/PHYSICAL SCIENCE UNITS**

**TOTAL QUALITY POINTS**

### ADDITIONAL YEAR IN ENGLISH, MATHEMATICS OR NATURAL/PHYSICAL SCIENCE (1 YEAR REQUIRED)

<table>
<thead>
<tr>
<th>10/7 COURSE TITLE</th>
<th>CREDIT X GRADE = QUALITY POINTS (MULTIPLY CREDIT BY GRADE)</th>
</tr>
</thead>
</table>

**TOTAL ADDITIONAL UNITS**

**TOTAL QUALITY POINTS**

### SOCIAL SCIENCE (2 YEARS REQUIRED)

<table>
<thead>
<tr>
<th>10/7 COURSE TITLE</th>
<th>CREDIT X GRADE = QUALITY POINTS (MULTIPLY CREDIT BY GRADE)</th>
</tr>
</thead>
</table>

**TOTAL SOCIAL SCIENCE UNITS**

**TOTAL QUALITY POINTS**

### ADDITIONAL ACADEMIC COURSES (4 YEARS REQUIRED)

<table>
<thead>
<tr>
<th>10/7 COURSE TITLE</th>
<th>CREDIT X GRADE = QUALITY POINTS (MULTIPLY CREDIT BY GRADE)</th>
</tr>
</thead>
</table>

**TOTAL ADDITIONAL ACADEMIC UNITS**

**TOTAL QUALITY POINTS**

**TOTAL QUALITY POINTS FROM EACH SUBJECT AREA / TOTAL CREDITS = CORE-COURSE GPA**

**Quality Points / Credits = Core-Course GPA**

Sixteen core courses are required for your core-course GPA. Ten core courses must be completed before the seventh semester; seven of the 10 must be a combination of English, math or natural or physical science.
Division II academics standards

Division II schools require college-bound student-athletes to meet academic standards for NCAA-approved core courses, core-course GPA and test scores.

To be eligible to practice, compete and receive an athletics scholarship in your first full-time year at a Division II school, you must graduate from high school and meet all of the following requirements:

1. Complete 16 core courses in the following areas:

<table>
<thead>
<tr>
<th>Core Area</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGLISH</td>
<td>3 years</td>
</tr>
<tr>
<td>MATH (Algebra I or higher)</td>
<td>2 years</td>
</tr>
<tr>
<td>NATURAL/PHYSICAL SCIENCE</td>
<td>2 years</td>
</tr>
<tr>
<td>SOCIAL SCIENCE</td>
<td>2 years</td>
</tr>
<tr>
<td>ADDITIONAL (Any area listed to the left, foreign language or comparative religion/philosophy)</td>
<td>4 years</td>
</tr>
</tbody>
</table>

2. Earn an SAT combined score or ACT sum score that matches your core-course GPA (minimum 2.200) on the Division II full-qualifier sliding scale (see page 24).
**Academic Certification Decisions**

An academic certification will be conducted to determine if you meet the Division II academic standards. Academic certifications are required for all college-bound student-athletes planning to compete at a Division II school. (An amateurism certification is also required; see page 27.) The following items are required in order to complete your academic certification:

- A final official transcript with proof of graduation.
- Official transcripts from all high schools attended.
- Test scores.

Being placed on a school’s institutional request list notifies the NCAA Eligibility Center to complete an academic evaluation for you once all of your appropriate documents have been submitted.

If you are being recruited by a Division II school, below are the most common decisions you may receive once a certification has been completed.

**EARLY ACADEMIC QUALIFIER**

If you meet specific criteria listed below after six semesters, you may be deemed an early academic qualifier for Division II and may practice, compete and receive an athletics scholarship during your first year of full-time enrollment. To be an early academic qualifier, you will need:

- A minimum ACT sum score of 68 or a minimum SAT combined score (math and critical reading) of 900.
- A core-course GPA of 2.5 or higher in a minimum of 14 core courses in the following areas:
  - Three years of English.
  - Three years of math.
  - Two years of natural or physical science.
  - Six additional core courses in any area.

A final high school transcript must be submitted to the NCAA Eligibility Center after high school graduation for all early academic qualifiers.

**QUALIFIER**

You may practice, compete and receive an athletics scholarship during your first year of full-time enrollment at an NCAA Division II school.

**PARTIAL QUALIFIER**

You may receive an athletics scholarship during your first year of full-time enrollment and may practice during your first year of enrollment at a Division II school, but may NOT compete.

**NONQUALIFIER**

You will not be able to practice, compete or receive an athletics scholarship during your first year of full-time enrollment at a Division II school.

**What if I Don’t Meet the Division II Standards?**

If you enroll full time at a Division II school and you have not met all Division II academic standards, you may not compete in your first year. However, if you meet the standards to be a partial qualifier, you may practice and receive an athletics scholarship in your first year at college. To be a partial qualifier, you must graduate high school and meet all of the following standards:

- Complete 16 core courses.
- Earn an SAT combined score or ACT sum score matching your core-course GPA (minimum 2.000) on the Division II partial-qualifier sliding scale (see page 24).

**Core-Course Timeline**

If you plan to attend a Division II school, you must complete 16 NCAA core courses after starting grade nine and before your first full-time college enrollment.

**Courses Taken After High School**

For Division II, you may use an unlimited number of core courses completed after graduation (summer or academic year) before full-time collegiate enrollment. You may complete the core course(s) at a location other than the high school from which you graduated. A college course taken after high school graduation can be used toward your initial eligibility and will be awarded 0.5 units (unless awarded one full unit by your home high school). It must appear on your home high school transcript with grade and credit.
Sliding Scale for Division II

Division II uses a sliding scale to match test scores and GPAs to determine eligibility. The sliding scale balances your test score with your GPA. Find more information about test scores on page 13 or visit ncaa.org/test-scores.

### Sliding Scale for Division II

QUALITY POINTS / CREDITS = CORE-COURSE GPA
DIVISION III INFORMATION

Division III institutions provide an integrated environment focusing on academic success while offering a competitive athletics environment. Division III rules minimize potential conflicts between athletics and academics and focus on regional in-season and conference play to maximize academic, co-curricular and extracurricular opportunities.

While Division III schools do not offer athletics scholarships, 80% of Division III student-athletes receive some form of merit or need-based financial aid.

If you are planning to attend a Division III school, you can create a free Profile Page at eligibilitycenter.org to learn more about college sports. Division III schools set their own admissions and eligibility standards. You can visit ncaa.org/d3 or contact the Division III school you are planning to attend to learn more.
GUIDE FOR THE COLLEGE-BOUND STUDENT-ATHLETE

When you register for a Certification Account with the NCAA Eligibility Center, you will be asked a series of questions about your sports participation to determine your amateur status. In some instances, the NCAA Eligibility Center staff may need to gather additional information to evaluate your amateur status.

Issues Reviewed as Part of the Amateurism Certification Process

- Delaying your full-time collegiate enrollment to participate in organized competition.
- Playing with professionals.
- Signing a contract with a professional team.
- Participating in tryouts or practices with a professional team.
- Receiving payment or preferential treatment/benefits for playing sports.
- Receiving prize money.
- Receiving benefits from an agent or prospective agent.
- Involvement with a recruiting service.

Requesting Final Amateurism Certification

College-bound student-athletes enrolling for the first time at a Division I or II school must receive a final amateurism certification before being eligible to compete. (This includes transfers from junior colleges, NAIA, international or Division III schools.) Students must request their final amateurism certification through their Eligibility Center account; the Eligibility Center staff cannot begin your amateurism certification without your request. Please note: You can request your final amateurism certification even if other tasks are still open in your account. When you can request your final amateurism certification depends on when you are starting at a Division I or II school:

**Fall enrollment:** If you are enrolling at a Division I or II school for the fall semester, you may request a final amateurism decision from the NCAA Eligibility Center on or after April 1 before your enrollment at an NCAA school.

**Winter/Spring enrollment:** If you are enrolling at a Division I or II school for the spring semester, you may request a final amateurism decision on or after Oct. 1 before your enrollment at an NCAA school.

Delayed Enrollment

After you graduate high school, you have a certain amount of time — called a “grace period” — to enroll full time at any two-year or four-year college or university. If you do not enroll at the first opportunity after your grace period and continue to compete in organized competition, you will use one season of NCAA eligibility for each calendar year during which you continue to compete. You also may be required to serve an academic year in residence at your NCAA institution before you can compete. For more information on delayed enrollment, please review the chart on page 28.

Frequently Asked Amateurism Questions

**What is Organized Participation?**

Participation is considered organized if ANY of the following exist:

- Official score is kept.
- Standings or statistics are maintained.
- Official timer or game officials are used.
- Admission is charged.
- Teams are regularly formed or team rosters are predetermined.
- Team uniforms are used.
- An individual or team is privately or commercially sponsored.
- The competition is either directly or indirectly sponsored, promoted or administered by an individual, an organization or any other agency.
- Division I: The competition is scheduled and publicized in advance.
- Division II: The competition is scheduled in advance.

*A college-bound student-athlete’s grace period is the period between their expected date of high school graduation and initial full-time collegiate enrollment.

**Competition must be sanctioned by the U.S. Ski and Snowboard Association or its international counterparts.
Who is an Agent?
An agent is an individual who directly or indirectly represents you by marketing your athletics ability or reputation, or attempts to benefit from guiding you to a particular NCAA school or from your expected earnings as a professional athlete.

What is a Professional Team?
A professional team is one that declares itself as professional, or provides any player more than their actual and necessary expenses. Actual and necessary expenses are defined as:

- Meals and lodging directly tied to competition or practice directly related to the competition.
- Transportation expenses, such as to and from practice, training or competition.
- Apparel, equipment and supplies related to competition, or practice directly related to competition.
- Coaching and instruction, or the use of facilities and entry fees.
- Health or medical insurance, medical treatment and physical therapy directly associated with an individual’s participation on a team or in an event.
- Other reasonable expenses such as laundry money.

Additional information on amateurism and recruiting/scouting services is available at ncaa.org/student-athletes/future/amateurism.

**OVERVIEW OF NCAA DIVISIONS I AND II PRE-ENROLLMENT AMATEURISM BYLAWS**

<table>
<thead>
<tr>
<th>Before initial full-time enrollment at a college or university, may a college-bound student-athlete...</th>
<th>Permissible in Division I?</th>
<th>Permissible in Division II?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delay enrollment (grace period)?*</td>
<td>Tennis (men and women): Yes, six months. Men's ice hockey and skiing (men and women): Yes, until 21st birthday. All other sports: Yes, 12 months.</td>
<td>Tennis (men and women): Yes, 12 months. Men's ice hockey and skiing (men and women): Yes, two years.** All other sports: Yes, 12 months.</td>
</tr>
<tr>
<td>Use a recruiting or scouting service?</td>
<td>Yes. The fee the service charges cannot be based on receipt or the amount of an athletics scholarship.</td>
<td>Yes. The fee the service charges cannot be based on receipt or the amount of an athletics scholarship.</td>
</tr>
<tr>
<td>Receive funding from an outside source?</td>
<td>Yes, if the funding is less than or equal to the student-athlete’s actual and necessary expenses related to competition and practice directly associated with competition. Training expenses may only be provided by the U.S. Olympic Committee (USOC), appropriate national governing body (or international equivalent organization for international students) or a governmental entity.</td>
<td>Yes.</td>
</tr>
<tr>
<td>Receive prize money?</td>
<td>Tennis: Yes, if it does not exceed $10,000 per calendar year and comes from the sponsor of the event. Once the $10,000 limit is reached, additional prize money may not exceed actual and necessary expenses for each subsequent event in the calendar year. All other sports: Yes, if it does not exceed actual and necessary expenses for a calendar year and comes from the sponsor of the event.</td>
<td>Precollegiate enrollment - Yes.</td>
</tr>
<tr>
<td>Enter into an agreement (verbal or written) with an agent?</td>
<td>Baseball and men's ice hockey: Yes, provided it is prior to collegiate enrollment AND the individual has already been drafted. The agent may then negotiate with the professional team, provided the individual is not awarded any benefits, pays the going rate for the representation and the agreement is discontinued before enrolling in college. All other sports: No.</td>
<td>No.</td>
</tr>
<tr>
<td>Receive benefits from an agent?</td>
<td>No.</td>
<td>No.</td>
</tr>
<tr>
<td>Try out with a professional team?</td>
<td>Men's ice hockey and skiing: Yes. May receive actual and necessary expenses for one tryout (up to 48 hours) from each professional team. Self-financed tryouts may exceed 48 hours. All other sports: Yes. May not exceed actual and necessary expenses.</td>
<td>Precollegiate enrollment - Yes.</td>
</tr>
<tr>
<td>Be selected in a professional draft?</td>
<td>Yes. Please contact the NCAA or your school's compliance office before entering an opt-in draft.</td>
<td>Yes. Please contact the NCAA or your school’s compliance office before entering an opt-in draft.</td>
</tr>
</tbody>
</table>

*A college-bound student-athlete’s grace period is the period between their expected date of high school graduation and initial full-time collegiate enrollment. **Competition must be sanctioned by the U.S. Ski and Snowboard Association or its international counterparts.
INTERNATIONAL STUDENTS

An international student is one who has taken coursework outside the United States (not including DoDDS or American schools abroad) from school years nine and up. As an international student, you must submit the following information:

- Transcripts for years nine and up in the native language.
- Proof of graduation in the native language, which may include certificates, diplomas and/or final leaving exams.
- Certified line-by-line English translations of these documents if they are issued in a language other than English.

For specific details about the documents you must submit, please refer to the current Guide to International Academic Standards for Athletics Eligibility or visit the International Student-Athletes page at ncaa.org/international.

In certain situations, the NCAA Eligibility Center may request additional documentation to clarify that your academic information is complete, valid and accurate. The task list within your Eligibility Center account is used to communicate these requests, so be sure to check your email frequently for task notifications.

- For information on how to submit documentation, please visit ncaa.org/international.
- All documents submitted to the NCAA Eligibility Center become the property of the NCAA Eligibility Center and cannot be returned. This includes any mailed original documents.

In addition to your academic credentials, students also must submit all SAT or ACT scores. Your scores must be sent electronically to the NCAA Eligibility Center by the testing agency. When registering for the SAT or ACT, use code 9999 to ensure your test scores are sent directly to your Eligibility Center account.

Failure to include any of these items will delay the review of your records, so be sure to understand the documents required for the country in which you attended school by reviewing the current Guide to International Academic Standards for Athletics Eligibility, available for download at ncaapublications.com, or visit your country’s specific information page at ncaa.org/student-athletes/future/africa.

Need help? For specific questions that you can’t find the answer to in our other resources, use our International Contact Form, found at ncaa.org/contactinternational.

Being a student-athlete has been a truly enriching experience. I have learned discipline, time management and commitment, among other skills, that I utilize in every aspect of my life. On an emotional level, I have made friends from diverse backgrounds and forged friendships with my teammates that will last a lifetime. As an international student, I have been fortunate to gain different perspectives from every experience that college sports has to offer.

Women’s Tennis, Wagner College
HOME SCHOOL STUDENTS

Learning at home is not necessarily the same as being home schooled. Because of recent growth in online and virtual education, a student may be able to learn at home through an online school with online teachers, which would not be considered a parent-directed tutor.

Courses evaluated as home school courses are those in which a parent or parent-directed tutor:

• Plans and delivers actual instructional activities such as lectures, discussions, tutorials, feedback or assistance.
• Determines the student’s comprehension of the material by grading and evaluating student performance and achievement on assignments and assessments and providing appropriate re-teaching and feedback.
• Determines the overall grade the student achieved in the course.
• Places the grade on a transcript or grade report or reports the grade to an approved home school umbrella program.

How to Register

If you are a home school student and want to play NCAA sports at a Division I or II school, you need to register with the NCAA Eligibility Center and meet the same standards as all other students.

Once you have completed your registration, visit ncaa.org/student-athlete/future/home-school-students and download the Home School Students section for a toolkit. This resource provides you with all of the necessary home school resources.
Some of the most common EIDs include:

- Learning disabilities.
- Attention-deficit/hyperactivity disorder.
- Mental health disorders.
- Medical conditions.
- Deaf or hard of hearing.
- Autism spectrum disorder.

If you have a documented EID, you must meet the same initial-eligibility standards as other students but may be provided certain accommodations to help meet those standards. For instance, if you have a documented EID, you may be allowed to take classes designed for students with EIDs if the classes appear on your school’s list of NCAA-approved courses.

### Submitting Your EID Documentation

If you are a student with a documented EID, you only need to alert the NCAA Eligibility Center about your disability if you plan to enroll full time at a Division I or II school and would like to take additional core courses after you graduate high school.

If your EID documentation is approved by the NCAA Eligibility Center and you plan to attend a **Division I** school:

- You may take up to three additional core courses after graduating high school but before enrolling full time at a Division I school — as long as you graduate from high school in eight consecutive semesters after starting ninth grade.

If your EID documentation is approved by the NCAA Eligibility Center and you plan to attend a **Division II** school:

- You may take an unlimited number of core courses after starting ninth grade but before enrolling full time at a Division II school.

Information submitted to the NCAA about your EID is **not** released to colleges unless the student-athlete makes a specific written request.

To document your EID with the NCAA Eligibility Center, you must submit the following materials:

1. A complete NCAA EID cover sheet.
2. Your NCAA identification number, high school graduation year, permanent address and phone number.
3. Current, signed documentation of your diagnosis (including test data) and/or recommendations from the treating professional (e.g., medical doctor, clinical psychologist or other qualified individual).
4. Current copy of your Individualized Education Program (IEP) or Section 504 Plan. If your high school did not provide an IEP or 504 Plan, the high school must submit documentation describing the available accommodations or an explanation of why accommodations were not provided.
5. A signed Buckley Statement form allowing certain individuals to review your EID information and speak on your behalf to the NCAA. A parent or guardian who would like to discuss your EID request with the NCAA must be listed on the Buckley Statement.

The cover sheet and Buckley Statement can be found at [ncaa.org/student-athletes/future/education-impacting-disabilities](http://ncaa.org/student-athletes/future/education-impacting-disabilities).

### Where to Send Your EID Documents

**NCAA Eligibility Center**

**EID Services**

P.O. Box 7110

Indianapolis, IN 46207-7110

Fax: 317-968-5100

Email: [ec-processing@ncaa.org](mailto:ec-processing@ncaa.org)

If approved, you will be notified in writing and provided with additional information about available accommodations.

### SAT/ACT Exam with Accommodations

If you have a documented EID, you may also request to take an SAT or ACT exam with accommodations to satisfy test-score requirements by:

- Registering for accommodations using the directions provided by the SAT or ACT.
- Following procedures governed by SAT or ACT. The test may not be administered by a member of your high school athletics department or any NCAA school’s athletics department.

If you take an SAT or ACT exam with accommodations, you may take the test on a date other than a national testing date, but you still must achieve the required test score.

Your high school counselor can help you register to take an SAT or ACT exam with accommodations.
**IMPORTANT RECRUITING TERMS**

**Celebratory standardized signing form** (a form used by Division III institutions): This form is a standard NCAA-provided, nonbinding athletics celebratory signing form after a college-bound student-athlete has been accepted for enrollment at a Division III school.

**Contact**: A contact happens any time a college coach says more than “Hello” during a face-to-face meeting with you or your parents off the college’s campus.

**Contact period**: During a contact period, a college coach may have face-to-face contact with you or your parents, watch you compete, visit your high school and call or write to you or your parents.

**Dead period**: A college coach may not have any face-to-face contact with you or your parents on or off the college campus at any time during a dead period. The coach may call or write you or your parents during this time.

**Evaluation**: An evaluation happens when a college coach observes you practicing or competing.

**Evaluation period**: During an evaluation period, a college coach may watch you compete, visit your high school and call or write to you or your parents. However, a college coach may not have face-to-face contact with you or your parents off the college’s campus during an evaluation period.

**Financial aid (scholarship)**: Any money you receive from a college or another source, such as outside loans or grants. Financial aid may be based on athletics ability, financial need or academic achievement.

**Five-year clock**: If you play at a Division I school, you have five calendar years in which to play four seasons of competition. Your five-year clock starts when you enroll as a full-time student at any college. Thereafter, your clock continues, even if you spend an academic year in residence as a result of transferring, decide to redshirt, do not attend school or attend school part time during your college career.

**Full-time student**: Each school determines what full-time status means. Typically, you are a full-time student if you are enrolled for at least 12 credit hours in a term, but some schools define a full-time student as someone who takes fewer than 12 credit hours in a term.

**International student**: An international student is any student who is enrolled in a secondary school outside the United States, U.S. territories or Canada (except Quebec).

**Institutional request list**: An institutional request list (IRL) is a list of college-bound student-athletes who an NCAA Division I and/or II school is interested in recruiting. The action of adding a college-bound student-athlete to the IRL informs the NCAA Eligibility Center of the school’s interest in having an academic and amateurism certification decision for the student-athlete.

**Official commitment**: When you officially commit to attend a Division I or II college, you sign a National Letter of Intent, agreeing to attend that school for one academic year.

**Official visit**: During an official visit, the college can pay for transportation to and from the college for you (and up to two family members in Division I Basketball and FBS Football), lodging and meals (Division I allows for up to three meals per day) for you and up to four family members, as well as reasonable entertainment expenses, including five tickets to a Division I or Division II home sports event. Before a Division I or II college may invite you on an official visit, you will have to provide the college with a copy of your high school transcript and register for a Certification Account with the NCAA Eligibility Center. In Division I, it is not permissible to make an official visit during a recruiting shutdown period or a dead period.

**Quiet period**: During this time, a college coach may not have any in-person contact with you or your parents off the college’s campus. A coach may not watch you play or visit your high school during this period. You and your parents may visit a college campus during this time. A coach may call or write to you or your parents during this time.

**Recruited**: If a college coach contacts you off campus, pays your expenses to visit the campus, or (in Divisions I and II) issues you a National Letter of Intent or a written offer of financial aid, you are considered recruited.

**Recruiting calendar**: NCAA member schools limit recruiting to certain periods during the year. Recruiting calendars promote the well-being of college-bound student-athletes and ensure fairness among schools by defining certain periods during the year in which recruiting may or may not occur in a particular sport.

**Recruiting shutdown**: A recruiting shutdown is a period of time when no forms of recruiting (e.g., contacts, evaluations, official or unofficial visits, correspondence, or making or receiving telephone calls) are permissible.

**Season of competition**: Generally, NCAA rules say any competition in a season — regardless of the amount of time — counts as having played one season in that sport. If you play any time during a season, regardless of how long you played, it counts as having played for an entire season in that sport. A season starts when you spend one second in competition on the field, court, gym or track. In Division III, you also use a season if you practice at any time after the first contest.

**Ten-semester/15-quarter clock**: If you play at a Division II or II school, you have the first 10 semesters or 15 quarters in which you are enrolled as a full-time student to complete your four seasons of competition. You use a semester or quarter any time you attend class as a full-time student or are enrolled part time and compete for the school. You do not use a term if you only attend part time with no competition or are not enrolled for a term.

**Two-year college**: Any school from which students can earn an Associate of Arts, Associate of Science or Associate of Applied Science within two years. Some people call these schools community or junior colleges.

**Unofficial visit**: Any visit by you and your parents to a college campus paid for by you or your parents. The only expense you may receive from the college is three complimentary admissions to a Division I home athletics contest or five complimentary admissions to a Division II home athletics contest. You may make as many unofficial visits as you like after the first permissible date in each sport. The only time you cannot talk with a coach during an unofficial visit is during a dead period. In Division I, it is not permissible to make an official visit during a recruiting shutdown period or a dead period. In Division III, you may receive one on-campus meal as well as admission to a home athletics event for you and those accompanying you.

**Verbal commitment**: A verbal commitment happens when you verbally agree to play sports for a college before you sign or are eligible to sign a National Letter of Intent. The commitment is not binding on you or the school.

**Walk-on**: Someone who is not typically recruited by a school to participate in sports and does not receive a scholarship from the school, but who becomes a member of one of the school’s athletics teams.
When I think of my experience as a Division I student-athlete, words that come to mind are discipline and reward. The discipline required for success in my academic work and on the playing field has given me a solid base for continued personal growth. I am exceedingly grateful for my experience as a student-athlete and the skills it has developed within me that will lead me to excel in all future endeavors.

### QUESTIONS TO ASK

While you are on a campus visit, consider asking questions about these topics to learn more about the school, athletics program and life on campus. You also can get suggestions of questions to ask coaches and administrators at ncaa.org/student-athletes/future/choosing-college.

- Academic resources.
- Scholarship renewals.
- Financial aid and cost of attendance.
- Admissions requirements.
- Study abroad/internships.
- Athletic training and medical expenses.
- Degree programs and graduation rates.
- Team time demands.
- On-campus housing.
- Coaching philosophy and style.
- Injuries and rehabilitation.
- Graduation rates.
- Schedule planning and time management.
- Playing time.

### REMEMBER

In addition to receiving your academic and amateurism certification from the NCAA Eligibility Center, you also must apply and be accepted to your DI or DII college before you can compete on campus.
