Coca cola australia annual report 2016

This worldwide recognition didn't come overnight. At first, Pemberton sold only a few glasses of Coca-Cola a day. In 1887, the Coca-Cola Company distributed coupons for free samples -- it claims it was the first to use this method of attracting new customers. In 1894, candy maker Joseph Biedenharn became the first person to bottle Coca-Cola. Suddenly, the drink became available to people who did not have easy access to a soft drink counter. Ad bottling proved to be the key to soda success. The Coca-Cola Company began developing its global bottling network in the late 1800s. Between 1890 and 1900, sales of Coca-Cola syrup increased by 4,000%. In 1919, the company had bottling plants in Europe and Asia, and by 1920, there were more than 1,000 bottling plants in the United States. Today, Coca-Cola is one of the most prevalent brands in the world. The company sells more than 1.3 billion beverages every day in 200 countries worldwide. Coca-Cola also had an impact on popular culture. Many people remember the words of I'd Like to Buy the World a Coke, also known as I'd Like to Teach the World to Sing, a song that had been part of an advertising campaign for over 35 years. Coca-Cola's holiday ad campaigns have also influenced how people around the world imagine Santa Claus. For more information about Coca-Cola and related topics, check out the links on the next page. A small bowl of Coca-Cola will attract slugs and snails, and then the acid in the Coke will kill them. A cup of Coca-Cola can also be used to attract wasps, which then drown in the liquid. You can even get rid of an anthill by liberally using the area with Coca-Cola. Related: New & Notable: 8 High-tech bug Zappers to keep you bite-free Coca can be used to clean car battery terminals; The slight acidity does not react with battery acid, so you can esand it on the battery and let it wash away the corrosion. Coca can also be used to defrost a frozen windshield, and a liberal amount of glue poured over the windshield and bumper can help remove insects and debris from the road (always rinse with clean water to avoid damaging the car paint). Coca-Cola can help improve your compost pile. Add one can of soda a week to your compost; the sugar in the glue feeds beneficial microorganisms, and the glue increases the acidity of the cell, helping the material to decay more quickly. Related: Composting 101: What you should and should not compost toilets can get completely disgusting, full of ugly stains under the edges and around the bowl. Make it easy to clean up an unpleasant cleaning task by putting a can of Coke in the bathroom. Let it stand for a before rubbing with a hard brush. The carbonation will fizz through the dirt harder, leaving you with a shiny clean bowl. Related: 8 unusual tips for your cleanest bathroom of all time You may have heard that Coca-Cola is great for removing rust. The hype hype true - phosphoric acid in a can of Coca-Cola means that an overnight dip can help remove rust from the metal with ease. Just submerge the item in a Coca-Cola tray, then rub clean with a hard brush in the morning. Related: How to: Keep the Metal in your backyard Maybe it's time to give Coca-Cola a place in your laundry. The soda makes an effective treatment and stain remover for grease stains in your laundry. For best results, apply to fresh stains. If the site discolors a bit when you spill over the Coca-Cola, that's a sign that it's working. Let the liquid rest for a few minutes and then wash as usual in the hottest water recommended for the piece. When engine oil dwells onto the sidewalks and floors of the garage, it leaves an ugly stain that is difficult to remove with ordinary wipers. That's where a coke comes from. Pour a liberal amount of glue over the stain, let it bubble and soak for an hour, then clean the hose. Copper bottom pots are great for driving heat, but copper loses its luster with use. Restore that glowing glow by soaking the copper bottom in a pan full of Coca-Cola for about an hour. The acid in Coca-Cola makes the copper look shiny and new —without rubbing. This cleaning trick works on many other household copper accents as well. If your oven grills and baking sheets have seen better days, you don't need to play and buy new ones. Instead, try letting them soak overnight in a Coca-Cola bath. The chemicals in the glue will loosen all the burned pieces, allowing you to clean most snowy areas and save you having to replace these expensive items.
