## X180, X190 Series

"The color green is a registered trademark of Zoeller Pump Co."

## Features

This series of submersible pumps is designed for use in residential or commercial dewatering or effluent applications in Class I, Division 1, Group C and D locations. Each pump is FM/CSA approved and features innovative motor and electrical enclosures that are designed to reduce the risk of vapor ignition both inside and outside the pump. Should vapors inside the electrical enclosures become ignited, the enclosures are engineered to contain the event and prevent escalation. Each pump is constructed of hardware that will allow it to operate safely and efficiently in extreme conditions. As with every Zoeller pump, each one is $100 \%$ factory tested to ensure quality and reliability for years of trouble free performance!

- Automatic models are available with an optional seal failure panel (P/N 101031).
- Nonautomatic units require a Zoeller control panel with intrinsically safe relays and a moisture indicator.
- Surface temperature code T5 (1 Ph) or T6 (3 Ph).
- Includes a stainless steel lifting bracket for easy installation and removal.
- All models are hermetically sealed to be watertight, dust-tight, and completely submersible.

Reserve Powered Design: For unusual conditions, a reserve safety factor is engineered into the design of every pump.

## Motor Characteristics

| Motor | $1-2 \mathrm{HP}$ |
| :--- | :--- |
| Voltage | $200-575 \mathrm{~V}$ |
| Phase | 1 or 3 Ph |
| Hertz | 60 Hz |
| RPM | 3450 RPM |
| Type | Permanent split capacitor or 3 phase |
| Insulation | Class B |
| Amps | $3.3-20.5$ Amps |
