

DIRECTIONS:

- ✦ Print out the book.
- ✦ You can print the book in color or in black and white. Cut each page in half. Staple pages together so the text is on the left and the picture is on the right facing the text. You can glue the next page to the back of the previous page. This will make the book paginate like a “real” book.
- ✦ Print the student’s name or have the student print his/her name on the blank line on each page.
