

Cultural Commons 2.0 Value Statement

Through **honest and effective communication**, we will **deepen connections amongst each other** while **influencing** Greater Milwaukee through **targeted engagement efforts using multiple communication outlets**.

We will **work as a team** to **collectively question our assumptions** in an **open, trusting, non-judgmental** environment that allows us to **engage in difficult conversations** and **activities that expand our understanding of ourselves and our fellow Cultural Commons members**.

Our goal is to **create a culture of inclusion and diversity** by focusing on **existing assets and resources** within the **Milwaukee community** that will enhance cross-cultural relationships and partnerships.
