

# SPLASH BASH!

PROJECT TOURS,  
REFRESHMENTS,  
AND ACTIVITIES  
WITH CEREMONY  
AT 10:30 AM

Help us celebrate the completion of the  
Rainwater Harvesting and Solar System

The project includes a bioswale which filters the stormwater runoff from Brown Street Academy's schoolyard, a 20,000 gallon underground cistern (built by 150+ volunteers!) and a 4.2 kW, off-grid solar system which powers a pump to reuse the harvested rainwater for irrigating the garden.

SATURDAY

**JULY 6TH**

10AM - NOON

**@ ALICE'S GARDEN**

2136 N. 21ST ST.

MILWAUKEE, WI

**RAIN OR SHINE!**
