January 31, 2023

Swivel Shelf Base Cabinet Pullout w/ Blum Soft-Close

The innovative 448SW Series is the only pullout on the market featuring two patent-pending swiveling shelves. The shelves feature a built-in self-centering system and chrome railing that not only keeps items in place & looks great but doubles as a handle when rotating the shelves. The self-centering system also features soft closing that gently returns the shelves to their closed position. Another exciting feature of this pullout is an “extension lock” that locks the entire unit in the extended position to prevent it from sliding back into the cabinet while it is being accessed. Designed for 9” and 12” full height cabinets, they are constructed from natural maple with a semi-gloss finish and glide on Blum slides w/ soft-close. Just add an existing cabinet door to provide seamless integration into any design. US Patent No: 8,338,076

About Rev-A-Shelf LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf’s product line began as metal and polymer Lazy Susan components manufactured for the largest U.S. cabinet manufacturers and have since grown into the market-leading innovator of residential cabinet storage solutions and L.E.D. cabinet lighting.

Rev-A-Shelf, located in Louisville, KY., manufactures thousands of innovative accessories for the kitchen, bath or closet. Under the Tresco Lighting brand, Rev-A-Shelf offers a full line of LED lighting options for residential cabinetry and commercial display fixtures. Rev-A-Shelf’s primary markets include cabinet hardware distributors, large O.E.M. cabinet manufacturers, Lowe’s and Menards home centers, and an array of online web resellers.
