Flexible Drip Trays

Are you worried about water leaks damaging your cabinets? Let us put your mind at rest with our SBFDT and SBFVDT Series Drip Trays. These flexible trays are perfect for installation in smaller spaces and are your first line of defense against water damage in your undersink cabinets. They are easy to clean, resistant to most household chemicals, and trimmable with scissors for easy customization. These drip trays protect the bottom of your cabinet first by holding water, then funneling excess water onto the floor in front of your cabinet, alerting you to the leak. They are available for standard 30", 36", or 42" sink bases and 24", 30", or 36" vanity sink bases.

About Rev-A-Shelf LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf's product line began as metal and polymer Lazy Susan components manufactured for the largest U.S. cabinet manufacturers and have since grown into the market-leading innovator of residential cabinet storage solutions and L.E.D. cabinet lighting.

Rev-A-Shelf, located in Louisville, KY., manufactures thousands of innovative accessories for the kitchen, bath or closet. Under the Tresco Lighting brand, Rev-A-Shelf offers a full line of LED lighting options for residential cabinetry and commercial display fixtures. Rev-A-Shelf's primary markets include cabinet hardware distributors, large O.E.M. cabinet manufacturers, Lowe's and Menards home centers, and an array of online web resellers.
