Welcome!

2018

On behalf of the entire staff at RCTCLEARN.NET, I'd like to welcome you as a new or returning customer. We are excited to be your partner in on-line homecare and hospice education.

RCTCLEARN has been providing online education to home care and hospice workers for over 15 years. Our library of over 100 courses continues to grow. Interactive content, knowledge checks and visuals keep our learners engaged and coming back for more.

RCTCLEARN's courses are available when you choose 24/7. Start and stop courses as your schedule allows. Review the material, take the necessary quizzes and final and be rewarded with a Certificate of Completion. It's that convenient and easy!

Courses in this catalog have been designed for a variety of audiences. Many of the courses are intended for individuals with limited to no medical training that are new to home care. The Human Diseases courses may also be useful to refresh or update knowledge on human diseases for staff currently working in home health in roles such as billing, coding or office support. Please refer to the course syllabus for specific information on the intended audience.

Please see our Direct Care Worker Catalog for courses designed to meet the learning needs of home health aides, nursing assistants, personal care workers and volunteers or our Professional Catalog for courses intended for nurses and therapists.

Still have questions? Give us a call or send us an email. We are happy to provide assistance! Or, feel free to check us out at www.RCTCLEARN.NET.

Human Diseases

An Introduction to Disease Diagnosis and Treatment

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements. This course provides an overview of the general mechanisms of disease, diagnosis and treatment.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Developmental Congenital and Childhood Diseases and Disorders

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of the developmental, congenital and childhood diseases and disorders.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Diseases and Conditions of the Circulatory System

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important

for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements. This course provides an overview of diseases and conditions of the circulatory system including cardiovascular and blood disorders.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Diseases and Conditions of the Digestive System

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements. This course provides an overview of diseases and conditions of the digestive system including those impacting nutrient intake and absorption.

Contact Hours:
hours based on a 60-minute contact hour

Diseases and Conditions of the Endocrine System

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of diseases and conditions of the endocrine system including diseases of the various glands in the body.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Diseases and Conditions of the Integumentary System

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of diseases and conditions of the integumentary system.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Diseases and Conditions of the Musculoskeletal System

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements. This course provides an overview of diseases and conditions of the musculoskeletal system.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Diseases and Conditions of the Reproductive System

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of diseases and conditions of the reproductive system for both male and female including pregnancy related conditions and diseases of the breast.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Diseases and Conditions of the Respiratory System

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of diseases and conditions of the respiratory system.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Diseases and Conditions of the Urinary System

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements. This course provides an overview of diseases and conditions of the urinary system.

Contact Hours:
1.0 hours based on a 60-minute contact hour

Diseases and Conditions of the Eye and Ear

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This

knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of diseases and conditions of the eyes and ears.

Contact Hours:

1.0 hours based on a 60-minute contact hour

Diseases and Conditions Resulting From Trauma

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important

for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements. This course provides an overview of diseases and conditions resulting from trauma to the human body.

Contact Hours:

1.0 hours based on a 60-minute contact hour

Immunological Diseases and Conditions

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This

knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of human immunological diseases and conditions including immunodeficiency diseases as well as autoimmune diseases.

Contact Hours:

1.0 hours based on a 60-minute contact hour

Mental Disorders

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important

for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of mental disorders including learning and sleep disorders.

Contact Hours:

1.0 hours based on a 60-minute contact hour

Neurological Diseases and Conditions

Understanding human diseases is critical when working in health care whether at the bedside or in office roles such as billing or coding. With the change to ICD10 CM coding, knowledge of human diseases is even more important for each team member. This knowledge ensures accurate data collection which can reduce the number of declined reimbursements.

This course provides an overview of diseases and conditions of the nervous system including vascular, functional, peripheral nerve and infectious disorders as well as trauma, injuries and tumors.

Contact Hours:

1.0 hours based on a 60-minute contact hour

ICD 10 Coding for Home Health Care

A Pre-Test for Improving Accuracy in ICD 10 Coding

This is a pre-test only for the "Improving Accuracy in ICD-10-CM Coding for Home Health Care" course. The pre-test is designed for individuals who have been through ICD-10 training that wish to gauge their understanding of the changes implemented with ICD-10 CM codes as well as their ability to accurately apply them. The pre-test may also be used by home care agencies to evaluate coders understanding of ICD-10. PLEASE NOTE: There are no contact hours awarded for this pre-test.

For individuals that prefer to review the changes implemented with ICD-10-CM or practice application of the codes before testing their knowledge, please skip this pre-test and proceed directly to the "Improving Accuracy in ICD-10 CM Coding" class.

Contact Hours:

0 Contact hour(s) based on 60-minute contact hour
PLEASE NOTE: This Pre-Test is not designed to provide contact hours to meet professional continuing education requirements.

Improving Accuracy in ICD 10 Coding for Home Health Care

Complete and accurate coding based on comprehensive documentation is critical to ensuring prompt and appropriate reimbursement for client services in home care. Home care providers caring for clients with complex

cares or multiple diagnoses face increased challenges in determining accurate codes for services with implementation of ICD-10.

This class provides hands-on practice and guidance to improve accuracy in the use of the expanded code

set. Coders can use the pre-test course to gauge their current knowledge or simply proceed with this course to practice application of the codes through a series of home care case scenarios.

Contact Hours:

0 contact hour(s) based on 60-minute contact hour
PLEASE NOTE: This course is not designed to meet nursing continuing education requirements.

Help Desk Information

Monday - Friday

8:00 a.m. - 4:30 p.m. (Central Time)

Evenings, Saturdays, Sundays & Holidays

Please leave your name and phone number and your call will be returned on the next business day.

If you are having issues with logging on or printing your certificate, please provide your username in addition to the above information.
