CONVINCE YOUR BOSS

DEEP LEARNING SUMMIT

San Francisco, 24-25 January 2019

WHAT IS IT ALL ABOUT?

Now that AI is here to stay, the world is now looking to research, develop and revolutionize software that can change the way we live, carry out our jobs and predict the future. Companies big, small, new and established are getting involved and leading the race, with much more being invested into technologies, research and talented professionals. The Deep Learning Summit brings all of these together to discuss and learn about topics including; Neural Networks, Machine Learning, Deep Learning Algorithms, NLP, Computer Vision and Speech Recognition.

WHAT WILL YOUR EMPLOYEE GAIN FROM IT?

Experience World-Class Presentations

Discover what's on the horizon from the world's leading minds and explore cutting-edge advancements in in AI.

Post-Summit Presentation Access

Missed a talk? View all summit presentations again and hear more from speakers in behind the scenes interviews and discussions.

Network With Global AI Leaders

Experience the unique opportunity of networking with AI pioneers as well as a cross-industry mix of attendees.

Deloitte
Zalando
Apple
Amazon
Netflix
Paypal

DON'T JUST TAKE OUR WORD FOR IT

I enjoyed seeing what other people are doing. It sparked new ideas, validated existing ones, & resulted in serendipitous connections.
<u>Chief Data Scientist</u>, **Talla**

The value of the event for me was staying up to date with my colleagues and details about how they are finding success with production architectures.
<u>AI Developer,</u> **Conservation Metrics**

Extremely well organised & intellectually stimulating event, with excellent speakers, audience interaction, and participation.
<u>Professor</u>, **Cornell University**

I had the opportunity to meet with the head of a prominent VC firm and found out about startups that would like me to be their technical advisor. As a speaker, I was able to bring my research to a wider audience. Great event!
<u>Ian Goodfellow</u>, **Google Brain**

SUPPORTED BY LEADING COMPANIES

As the summits continue to grow, we welcome new speakers, sponsors and exhibitors each year as well as returning companies who continue to benefit from the wealth of knowledge and expertise.

Full access to presentations from both the Deep Learning Stage and parallel **9 AI Impact Stages**, providing a diverse agenda, featuring a mix of **presentations**, **panel sessions**, **roundtable discussions**, i**nteractive networking** and more On both days a light breakfast, a hot lunch, tea and coffee and refreshments will be provided.

There will be **free wifi** so you can catch up on those important emails, as well as **charging stations** available. Across the summit there will be **12+ hours of networking** with 900**+ attendees** across both tracks, including a drinks reception at the end of day 1. Premium pass holders also receive **post-event access to all the filmed presentations**.
Group discounts available on summit tickets : TEAM3: save 20%, TEAM5: save 30%

HOTEL ROOM BOOKING DISCOUNTS
