The value of the event for me was staying up to date with my colleagues and details about how they are finding success with production architectures.

*Extremely well organised & intellectually stimulating event, with excellent speakers, audience interaction, and participation.*  
Professor, **Cornell University**

*I had the opportunity to meet with the head of a prominent VC firm and found out about startups that would like me to be their technical advisor. As a speaker, I was able to bring my research to a wider audience. Great event!*
