CONVINCE YOUR BOSS

AI FOR GOOD SUMMIT

SAN FRANCISCO, 20-21 JUNE 2019

WHAT IS IT ALL ABOUT?

Now that AI is here to stay, the world is now looking to research, develop and revolutionize software that can change the way we live, carry out our jobs and predict the future. Companies big, small, new and established are getting involved and leading the race, with much more being invested into technologies, research and talented professionals. The AI for Good Summit brings together founders, business leaders, investors and academics working towards AI having a positive impact on the world through new research and practical applications in sectors including environmental sustainability, accessible healthcare and education and transparent and non-biased AI techniques.

DON'T JUST TAKE OUR WORD FOR IT

I enjoyed seeing what other people are doing. It sparked new ideas, validated existing ones, & resulted in serendipitous connections.

The value of the event for me was staying up to date with my colleagues and details about how they are finding success with production architectures.
<div align="right">

AI Developer, **Conservation Metrics**
</div>

Extremely well organised & intellectually stimulating event, with excellent speakers, audience interaction, and participation.
<div align="right">

Professor, **Cornell University**
</div>

I had the opportunity to meet with the head of a prominent VC firm and found out about startups that would like me to be their technical advisor. As a speaker, I was able to bring my research to a wider audience. Great event!
