REGULAR ATTENDEES INCLUDE:

Amazon, Apple, Autodesk, Baidu, Booz Allen Hamilton, Bosch, CapitalOne, Cisco, Enlitic, EY, Facebook, Google, Huawei, Imperial College London, Intel, Microsoft, NASA, Open AI, PwC, Samsung, Siemens, salesforce.com, Twitter, University of Cambridge and Volkswagen.

WHAT DO THEY SAY

"I enjoyed the opportunity to see what other people are doing. **It sparked new ideas, validated existing ones, and resulted in serendipitous connections.**" Chief Data Scientist, Talla

"**The event was excellent**" Research Engineer, Facebook

"Great value for me both personally and professionally - two days where **I could learn, network and understand current and potential future trends** and how best I can add value to healthcare client companies. I have attended a number of life sciences centric symposium /conferences over the years and always found them to be beneficial. However in my view, **the size and format of this summit sets you apart, well done and keep up the great work.**" Director, ML Associates

"**It was a fantastic experience. The networking time was well-organized** and all the speakers and guests played their role perfectly. Actually everything was perfectly organized. **It was one of the best events I've ever attended.**" Anon

"I think that DL in healthcare summit has **been the best summit I have ever attended.** Not only because of the great food and the beautiful space, but because of the speakers and the science, that looked like magic available to all hands. **It is a MUST if you want to know what is going to happen in the deep learning field.**" CEO, MedicSen

"**Great connections, business opportunities & learning about new trends.** Congratulations on another amazing event!" Founder, Eyeris

"We really like Re-Work conferences as they **bring together machine intelligence experts from many industries and focus on applications and benefits of various approaches.** We managed to meet both **research and industry partners.** At Insilico, we are trying to encourage women in science, especially young female scientists. This makes events run by all-female Re-Work team special for us. **I highly recommend anyone interested in practical applications of AI to attend their events.**" CEO, Insilico Medicine
