

# 100th Day Self Portraits

As long as there are no (snow days) we will be celebrating the 100th day of school on **February 10th!**

Aside from the super fun learning that will take place, we are asking students to engineer a "self portrait" of themselves using (none other than) 100 objects!

First graders will have the opportunity to share their creations with Team Schappelkins. There are no limits! Start your planning!

Team Schappelkins

P.S. Mr. Schottner thinks it's a good idea to integrate edible food into your creation...perhaps, cake?

Happy 100th Day of First Grade!
